

Ready to read Third Press Digital? Great! Here's some help.

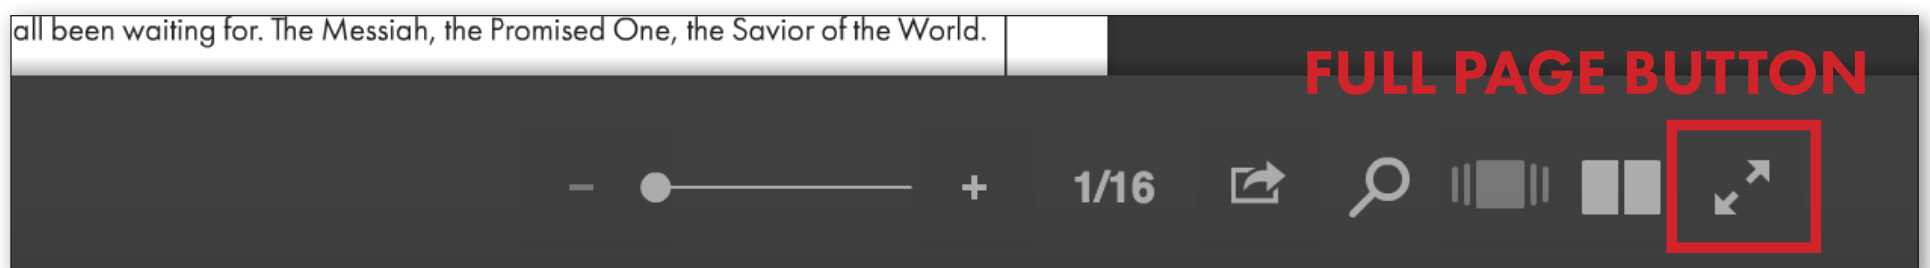

We've compiled these instructions so you can read and zoom in and out with ease. If you still need help, please contact Becca Payne at beccap@thirdrva.org or by calling the office at 282-4645.

STEP 1: Select the button that says: *Read the Current Issue Now*.

READ THE APRIL ISSUE NOW

This will open the Press into a special viewer that will maximize your viewing and reading experience. Trust us!

STEP 2: Enter full-screen mode! Third Press Digital is best viewed at full-screen within the special reader that we use. To go full screen, look at the bottom Navigation bar, and look for the full-screen button. See our image here:

STEP 3: Zoom in!

To get the text at the right size for your easy reading, use the zoom controls on the slider at the bottom left on the screen (once you're in the full-page view). Use the *PLUS (+)* button to make the text bigger, and the *MINUS (-)* button to make it smaller.

Or, grab the dot on the slider and slide it up and down the line to adjust the size.

STEP 4: Read and enjoy! Don't forget, the links are live, so you can click through to register or email someone right from your Digital Third Press.
