

STREETCCRED

IMAGINEERING COMPASSIONATE COMMUNITIES

Living, dying, surviving & thriving:

Working together to improve the lives of people experiencing homelessness

Date & Time: May 17 9am-12pm

Location: Foothills, Health Sciences G384

If you are involved or interested in research surrounding homelessness and structural vulnerabilities, please join the Street CCRED community for a research networking event. The purpose of this event is to learn from each other and provide an opportunity for researchers working in this area to connect with each other. Snacks and lunch will be provided.

Speakers:

- Dr. Victoria Burns** - Beyond Housing: Finding home after later-life homelessness
- Dr. Sonya Jakubec** - Driving nails without a hammer?: Finding the right tools to study structural vulnerabilities in place of vulnerable populations
- Dr. Van Nguyen** - Connect 2 Care Team: Transitions of care and community outreach for socially vulnerable patients with complex needs and high acute care use

Please register for this **FREE** event at: <https://streetccred.eventbrite.com>

If you are working with vulnerable populations and have a poster you wish to display, please send your poster title to eabuzath@ucalgary.ca by April 30th and we will get back to you with details for the poster and networking session.
