

March 2017 - 175 Update & Base Projections:

There are now 28 - 175 aircraft in operation and beginning in March we will have 30 in operation. March will see us return to Queretaro (QRO) with 2 flights a day. In the JAN update the full list of cities served by the 175 was included. As we learn of new cities we will be sure to provide that in future planning updates.

For March **DFW**, it is anticipated that there will be 378 lineholders (projected # based on flight hours), this is a decrease of 3 from February (381). There will be 6 CDO lines, 25 TDY to LGA, 15 RBL (Reserve Block) lines and 4 RWO (Reserve week-end Off) lines, we will have 15 part-time lines offered in March. The lowered line number is mostly due to the decrease of EMB aircraft in DFW, for the 175 we will see similar variety in March as we did in February.

For March **LGA**, it is anticipated that there will be 79 lineholders (projected # based on flight hours), this is an increase of 38 from February (41). There will be 0 CDO's, 3 RBL (Reserve Block) lines and 1 RWO (Reserve Week-End Off) line. We will see an improvement in hours resulting in 62 two-day pairings, 36 three-day pairings and 207 four-day pairings. We have a total of 88 Flight Attendants with the FEB bid month. There will be a TDY from DFW to LGA as we will be short headcount based on flight hours. The transfer list has been cleared and LGA will see the next 2 classes based there. At the current time LGA is expected to reach 120 Flight Attendants for the month of May.
