

Case Histories

High Blood Pressure / Arthritis

Individual: 70 year old, white female.

Diagnosis: Rheumatoid arthritis, hypertension.

History: Hysterectomy, tonsillectomy, gallbladder removed, appendectomy, poor circulation.

Recovery Time: 2 and 1/2 months.

End Results: Blood pressure range of 130/70, arthritis 350 removed, 80-90% greater bone density, mangled fingers and toes become straight again, 100% gray hair went to 70% black (her original hair color).

Type II Diabetes

Individual: 78 year old, black female

Diagnosis: Diabetes, hypertension, bowel weakness.

History: Post-stroke, diabetes, hypertension, parasites, hypothyroid.

Recovery Time: 2 months.

End Results: Diabetes and her hypertension are gone. Bowel weakness has greatly improved. Absorption has greatly improved thus improving her overall nutrition giving her increased energy.

Individual: 77 years old, black female.

Diagnosis: Diabetes/hypertension.

History: Constipation, high cholesterol, nervous breakdown, hysterectomy, appendectomy.

Recovery Time: 2 months.

End Results: All tests show her diabetes and high blood pressure are gone. Sugar stabilized between 85 and 110. Blood pressure close to 130/65.

Tumors

Individual: 65 year old, white female.

Diagnosis: Over 30 non-malignant tumors completely wrapped around her legs from her knees to her ankles, both legs.

History: Heavy daily drinker with swollen lymph nodes and congestion throughout.

Recovery Time: 2 and 1/2 months.

End Results: Two small tumors still visible.

Facial Paralysis

Individual: 39 year old, white male.

Diagnosis: Right-sided facial paralysis.

History: Individual fell 150 feet at the age of 16. The result was right-sided paralysis. Through the years, he gained mobility back in his limbs, but facial paralysis remained.

Recovery Time: 2 months

End Result: Right-sided facial paralysis is gone.

Cirrhosis of the Liver

Individual: 48 year old, white male.

Diagnosis: Degenerative cirrhosis of the liver

History: Long term (25 years) alcohol abuse, severe skin toxicity, hyperthyroid, liver damage (prolapsed bulging around the rib cage), long term use of Prozac.

Recovery Time: 3 months.

End Results: Liver strong and firm. Cirrhosis gone. Skin has tightened and toned. Individual off all anti-depressants and lost 65 pounds.

Case histories have been included in order to give you some examples of the power and strength of the God's Herbs formulas, especially when coupled with a raw food program!

All individuals in these case histories:

- Ate a 80-100% Raw Food Diet
- Started with a 2 week general detox of God's Herbs formulas: Liver/Gallbladder, Kidney/Bladder, Lymphatic, Endocrine Glands, Parasite G, Parasite M, and Stomach & Bowels
- After the initial 2 weeks, their specific weaknesses were systematically addressed using a more targeted herbal protocol (up to 7-9 herbal formulas every 2 weeks)
