

Case Histories

Cancer

Individual: 37 year old, white female.
Diagnosis: Lung cancer.
History: Chemotherapy, radiation therapy on grapefruit size tumor in left lung.
Recovery Time: 3 and 1/2 months.

End Results: Tumor gone, tissue 80% normal, cancer markers below, low range.

Individual: 35 year old, white male.
Diagnosis: Stomach cancer.
History: Over 15 year history of ulcers and ulcer treatment, irritable bowel syndrome.
Recovery Time: 2 months.

End Results: Cancer markers fall below detection. Total recovery.

Individual: 50 year old, white female.
Diagnosis: Breast and bone cancer.
History: Breast cancer, chemotherapy and radiation, the cancer metastasized to her bones, stem cell replacement therapy (very unsuccessful).
Recovery Time: 12 months.

End Results: Cancer markers are within normal ranges. Most tissue damage gone.

Circulation

Individual: 80 year old, white male.
Diagnosis: 100% occlusion in the right carotid artery and 85% in the left.
History: Over 20 surgeries including two open hearts, cancer, COPD.
Recovery Time: 6 months.

End Results: Down to a 20% occlusion in both the right and the left carotid arteries. Client has some shortness of breath left, however he can put in a full days work without getting tired.

Bone Regeneration

Individual: 52 year old, white male.
Diagnosis: Quadraplegic.

History: A 36 year old C-4/C-5 spinal cord injury. A fall 12 years previously fractured his right femur (unset). His right femur healed at a 30 degree angle pulling his leg up two inches. UTI's, cellulitis.
Recovery Time: 8 months.

End Results: No more UTI's or cellulitis. His right femur has straightened and increase by 1 and 1/2 inches. His spine also completely straightened.

Neurological Regeneration

Individual: 30 year old, white female.
Diagnosis: C-3 /C-4 spinal cord injury (quadraplegic)
History: Typical quadraplegic problems: UTI's, yeast infections, poor blood circulation, atrophy of tissue throughout, locked lungs, elimination problems, constant spasms, high/low blood pressure, immobility.
Recovery Time: 12 months.

End Results: Many unbelievable changes. The most significant was her spine which was completely severed, now has total body feeling and movement. Also the regeneration of the ovaries and uterus, she has 95% lung capacity where she had almost none.

Case histories have been included in order to give you some examples of the power and strength of the God's Herbs formulas, especially when coupled with a raw food program!

All individuals in these case histories:

- Ate a 80-100% Raw Food Diet
- Started with a 2 week general detox of God's Herbs formulas: Liver/Gallbladder, Kidney/Bladder, Lymphatic, Endocrine Glands, Parasite G, Parasite M, and Stomach & Bowels
- After the initial 2 weeks, their specific weaknesses were systematically addressed using a more targeted herbal protocol (up to 7-9 herbal formulas every 2 weeks)
