Office of the Governor
State House
107 North Main Street
Concord, NH 03301

**Re: Kinder Morgan/Tennessee Gas Pipeline Co.
Federal Energy Regulatory Commission Docket No. PF-14-22-000**

Dear Governor Hassan:

This letter serves as an update to our earlier correspondence dated May 5th. At this point, we have not received a response and wanted to provide you with additional information.

Selectboard members and town administrators from 13 NH towns impacted by the proposed Kinder Morgan pipeline met with Senator Shaheen on June 22nd at her office in Manchester. We valued the opportunity to share our concerns and recommendations and look forward to her continued assistance as we move forward with our efforts.

We have heard and understand your concerns regarding the current supply of natural gas in the region and its impact on electricity prices and economic development. We appreciate this perspective and would welcome the opportunity to share both our concerns and research with you. Projects currently being pursued by both Spectra Energy and Portland Natural Gas Transmission System would significantly increase natural gas supplies in the region without the need for eminent domain of both private and public lands, construction in currently pristine woods and wetlands of New Hampshire, or the addition of the largest compressor station in the eastern United States within the borders of New Hampshire.

We could meet in Concord at a time of your choosing or extend an open invitation for you to meet with us during one of our bi-weekly meetings at the Brookline town hall.

We would welcome the opportunity to discuss this project further and hope to hear from you soon.

Sincerely,

Tad Putney
