iPad

Laptop

30hands

Attach a recording to slides. Slides can be images or drawings. When done, your creation can be exported as a movie file.

Book Creator

Use drawing & text tools to make digital books. Books can be exported to the iBooks app or to PDF.

Haiku Deck

Make simple and beautiful slides. Add titles and search for accompanying images. Play on iPad or share on haikudeck.com.

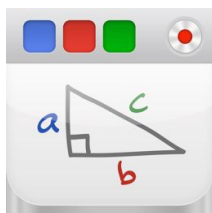

Funny Movie Maker

Transform a picture into a talking animation by superimposing a video of your mouth saying something onto any picture.

Comic Maker

Make comic strips and comic books by importing images and adding balloons, stickers, and text.

Educreations

Drop images from your Photo Library onto the canvas. Tap record and draw on the whiteboard while you talk.

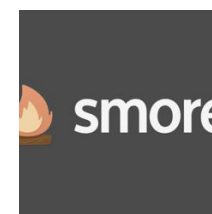

Google Presentations

Create a series of slides online in your web browser. You can add images and hyperlinks. Presentations are easily published.

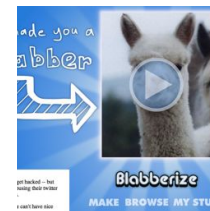

Google Documents

Create a text document in your web browser. You can add images and hyperlinks. Documents are easily published.

Smore

Create beautiful online flyers. Select a template and fill in the information and upload your images.

Blabberize

Upload any image, draw a mouth, and click record to make anyone or anything talk.

ZooBurst

Create your own pop-up books. Your books can be about any subject because you can import your own images.

Narrable

Upload a series of images and record audio for each one. Saves as a narrated slideshow you can play online.
