2024 Environmental Awardees

**Education
Excellence
Award**

Bekah Sheeler

Congratulations!

Perkiomen Watershed Conservancy's
2024 Environmental Awardees

Education Excellence Award

Bekah Sheeler

It is an honor to award Rebekah Sheeler the 2024 Environmental Award for Education Excellence. Bekah is an Environmental Educator with the Department of Conservation and Natural Resources and is based out of Nolde Forest near Reading, PA. Bekah started volunteering with the Conservancy in the Summer of 2023 helping with the Floating Classroom Summer Camp Program held at Green Lane Park. Bekah hit the ground running offering up new games, her kayaking skills and her natural history knowledge. Bekah has an infectious enthusiasm that inspires both camper and counselor alike.

This year, Bekah once again offered up her talents and spent countless hours mentoring students and sharing her knowledge with our first-ever group of adult summer-campers. Moreover, on the days Bekah couldn't volunteer, she often stopped by with cold treats for the hot campers. Bekah has become an integral part of the program, and we simply can't imagine summer camp without her!

Thank you, Bekah, for your enthusiasm, natural history knowledge and the desire to share them both!
