Member Agreement

I am responsible for pick of my box between 1 and 6 PM Thursdays - and understand that after that time the box may not be available. I will read the newsletter each week and understand that important updates are there, in print form or online. I understand that CSA's are based on the idea of shared risk and reward. In the event of severe weather or uncontrollable circumstances that a CSA box is not a guarantee while in times of bounty, more food may be provided.
