

Cultus Lake Park Board Grant Award Update

March 28, 2017

When the Cultus Lake Park Board team becomes aware of available grants, we seize the opportunity and apply for these grants from the federal and provincial governments and other organizations. These grants provide much needed financial support for a range of projects that allow us to better our community.

We are happy to announce that the Cultus Lake Park Board has been awarded the following grant:

Province of British Columbia – LED Lighting Grant

We have also been awarded a \$10,000 grant from the provincial government for LED lighting for our new accessible pathway system across the Main Beach area.

The pathway will allow residents, visitors and those with mobility challenges to easily and securely navigate from parking lots to the main swimming dock, washroom facilities and the playground at Main Beach. Five LED light standards have already been installed, using our operations budget. This grant will allow us to purchase and install an additional five.

We know that many people enjoy walking on the beach at night and the additional light standards will encourage year-round use of this popular spot.

The accessible pathway system and lights are expected to be completed by the end of June 2017 – just in time for summer at Cultus Lake.

This is your Park Board – and we welcome your questions, feedback and comments.
