INNOVATIVE TECHNOLOGY

EXTENSIVE EXPERTISE

COMPREHENSIVE SUPPORT

Innovative Technology

Tolteq's **simple designs** and **optimized electronics** push the boundaries of today, to solve your problems of tomorrow.

NewTech MWD knows better than anyone else how to **get the most** out of Tolteq technology, and we strive every day to pass that benefit on to our customers.

SMS Precision Tech's proprietary Alloy SMS-167 yields the strongest, longest lasting MWD components in the industry.

DigiDrill's Datalogger software features **fast, easy set-up** and the **advanced functionality** you need to be efficient and productive from the get-go.

-Live-Log MWD Data Transmission

-Real-Time Data Logging

Extensive Expertise

NewTech MWD is built on **years of MWD experience** both domestic and international. We know how to get your MWD Kit up and running at peak efficiency, and keep it running until the job's done, **no matter where you are.**

THE LEADING-EDGE ADVANTAGE

We're always searching for the newest, most advanced technologies in the industry to propel our services to the leading edge. We believe that our ability to learn, and rapidly translate that learning into action, is the ultimate competitive advantage.

We're here to deliver that advantage to you.
