Hi Peter-

We were supposed to hear from you last week? Can you please advise as to the outcome of the closed session on 11/7?

Thank you  
Lisa

Hi, Lisa,

Here's the update: It's not promising. The Board considered the possibility of a fourth lease for your proposed location and arrangement, and still have problems with the physical feasibility of it. There are also some unresolved cost implications, as well as implications that directly affect the existing lessees. I have to say that it does not look likely that the Board would approve a fourth lease; I was not instructed to draft one up.

Peter
