# HOLIDAY GIFT TAGS

## SUPPLIES

- [May Arts ribbon \(www.mayarts.com\)](http://www.mayarts.com)
  - 1 yd - 1/4" white satin center band (337-14-09)
  - 1 yd - 3/16" green grosgrain/stripes (RG46)
  - \*this will be enough for approx. 9 tags
- [DCWV christmas combo mat stack](#)
  - blue snow art square page
  - coordinating page for back of card
- ruler
- xacto blade
- tacky glue
- hole punch
- scissors

## INSTRUCTIONS

**step 1** – trim out individual art squares from blue snow paper. i used the squares with scarves and the background ribbon images.

**step 2** – using your backing paper, trim out duplicate sized squares. also trim out quarter sized circles to use as the tag hangers. set aside.

**step 3** – with your xacto blade, slice slits into the paper following existing artwork wherever you want your ribbon to enter and exit the paper. for the scarf artwork, put a slit on the left hand of the scarf and another over the knot portion.

**step 4** – slide your ribbon through the slits. for the scarf artwork, tie your ribbon into a knot over the artwork knot. then place small drops of glue onto the ends of the scarf artwork and press your ribbon into place.

**step 5** – when inserting ribbon into slits, be sure to leave slack and not pull tight. the 3d quality is what makes the tags special.

**step 6** – glue your small circles half on and half off the top of your tag. next, glue the background piece directly to the back of your artwork piece. this will secure ribbon in place and allow you to write a message to your recipient.

**step 7** – punch a hole into the visible half moon hanger and secure to gift with extra ribbon.
