WRAPPED lamp shade frame

SUPPLIES

- [May Arts ribbon \(www.mayarts.com\)](http://www.mayarts.com)
 - 3 yd - 5/8" green taffeta ribbon (HM06)
 - 3 yd - 5/8" pink taffeta ribbon (HM13)
 - 1 yd - 3/8" peach two tone ribbon (KN28)
- lampshade frame
- scissors
- glue gun
- assorted white buttons
- clothespins

INSTRUCTIONS

step 1 – begin with a piece of pink taffeta ribbon roughly 2.5 times the height of your shade. secure the ribbon to the top of the shade by tying a knot onto the top bar and then begin wrapping down the spoke. be sure to cover up the end of the knot when wrapping.

step 2 – when you reach the bottom of the spoke, secure a knot to finish. trim excess ribbon close to knot and secure with a dot of hot glue. repeat step 1 traveling around the shade, alternating colors of taffeta.

step 3 – using your peach two-tone ribbon, knot small swags around the top of your shade frame. when you finish, knot and trim ribbon close, then secure with a dot of hot glue.

step 4 – to cover up the finishing ribbon knots, glue decorative buttons to the top and bottom of each spoke.

step 5 – your shade is now finished! if you use an energy-efficient light bulb (the ones that don't get hot), you can clothespin notes and photos, etc to the frame. you could also hang this frame next to your computer for notes or in a child's room to display keepsakes.
