

SUCCESS MEDITATION

By John Randolph Price

All that the Universal Presence of God has is mine for God and the expression of God cannot be separated.

I live in the Eternal Now with the Infinite All and nothing is missing from my life.

I am the Power of God to Have.

I am the fiery strength of God, the living force of vitality that goes forth with divine intention and authority.

My creativity is love in action and everything I do is victorious.

My divine power is the thought that I will and every door swings open before that power.

I have divine aspirations to fulfill my highest destiny and with enthusiasm, I move forward forever illuminated by my higher vision.

I see that which is mine to do and I do it with ease, devotion, and gladness and I am blessed with the treasures of the divine for that is what I see.

I walk in the footsteps of my Self and my path is sure.

My ideas have been formulated in the crucible of my mind and are forged in divine design in my heart.

In joyful freedom, I now follow my heart for I have seen my destiny and what I see I know.
