*For Speaking Engagements I Propose To Present:*

## **1. Interacting with Spirits on the Other Side: Using your Psychic Abilities**

Communication with guides is essential to help you make better life decisions. Cortney Kane, Psychic Artist and Medium, invite you to unblock your knowledge toward understanding your psychic abilities and spirit guide connections. Through channeled information and energetic paintings, Cortney will help you move past blocks to clear communication through your using your psychic abilities to communicate with your guidance.

- Do you hear your guides?
- Do you know the language of your guides?
- Do you trust what you hear?
- If not, do you know why?

## **2. Past Lives**

There is recurring evidence from many psychological case studies that past lives exist. There appears to be a relationship between past life and current life experience. Illnesses and emotions spontaneously clear when a person is aware of their past life issue. Cortney Kane provides people with information to help them heal.

- Do you know what your past lives are?
- Do you know how your past life affects your current life?
- Are you suffering from an emotional or physical illness and you wonder where it came from?
- Would you like to know how to resolve your past life issues?

## **3. Messages from the Other Side – Gallery Reading**

Cortney paints the energy from your aura, your physical and channels messages to help provide you with a direction for moving forward in your life. Ask your most important questions and receive clear, specific guidance.
