

UN is composed of **Kara Keith** (vocals, sound layering wizard) and **Jen Reimer** (sound engineering, drums). After playing in bands with mostly male members, Keith broke away from the influence of others and played her first solo show in Montreal in the winter of 2010. Shortly after, feeling that something was missing, best friend Reimer came to rehearsal and laid down a 4 on the floor drum beat, giving the music a considerable lift and an added intensity of sound. The pair of musicians felt psychically connected and their unique, raw, electro-pop began to take form. It was the first time Reimer had ever played drums... And thus **UN** was born.
