

JEWELRY

Questions Explored in this Module

What types of jewelry were found in Ashkelon?

What does the jewelry we find tell us about life in ancient Ashkelon?

How is ancient jewelry alike/different from modern day jewelry?

Archaeology Word Wall

Silver: When silver gets older it turns black.

Gold: A precious metal used to make jewelry.

Bead: Are made out of all sorts of stones and glass.

Procedures

Log Book: Draw pictures of jewelry you think we have found in Ashkelon

Video 1: Jewelry

Log Book: Draw a picture of people in ancient Ashkelon wearing their jewelry.

Interactive Homework

Ask your parents if you can look at some of their jewelry. Can you sort the things you find by color? shape? type? Does any of the jewelry look like the jewelry Adam had in the video? Have your parent record your comments.

Junior Archaeology Assignment

Watch the video again and pick out a piece of jewelry that you like. Using fast dry clay or model magic try and make a replica of the piece of jewelry you saw in the video.
