

SITE TOUR

Questions Explored in this Lesson

What is the topography of the Ashkelon site?

How does topography influence archaeologists decision to excavate or not?

How is the Ashkelon site organized?

Procedures

- Give each student a copy of the topographical map of Ashkelon to add details to while watching the Topography of Ashkelon video. Examples of these maps can be found on our website.
- Have students participate in PowerPoint presentation of the site. Make any additions to topographical map based on PowerPoint. This can be done as a whole class activity or students can complete it independently on I pads or computers.
- Have students read the Site Tour Comic Book to get further acquainted with the site.
