RHS + MSB APs

- APs met 4/6 – 10 of 27 AP members attended
- Two general positions – more monitoring needed or not needed
- Variety of specific points made...
RHS + MSB APs

- Take tissue samples for future genetic analyses
- Develop hold-based alternatives
- Improve cap specification (stock information)
- Look at study fleet, other initiatives
- Mackerel fishery very limited
- Monitoring target definition
RHS + MSB APs

- Sub-options (waiver, sunset, re-evaluation)
- Consider all benefits of additional coverage
- Need clarity on actual costs to vessels once any plan implemented
  - Fishery-specific costs, annual evaluation
- Slippage and ASM data collection responsibilities
RHS + MSB APs

- EM/portside timeline
- Council coordination, cross benefits
