Marine Survey Operations Notice

For more information:
As our Fishing Liaison Officer, you will see Kevin around the docks. He is here to answer your questions and address concerns from fishermen of all sectors.

Please feel free to reach him at: 609.290.8577 or kevin.wark@atlanticshoreswind.com.

The maneuverability of all survey vessels will be restricted. It is important that mariners maintain a safe distance of at least 2 kilometers (1.0 nautical miles) from each vessel.

Survey operations will be conducted 24/7, weather permitting. They are expected to conclude on or about August 14, 2020, but may run longer as weather and operational conditions dictate. A Notice to Mariners will be issued prior to operations and vessels will monitor and broadcast on VHF Channel 16 during operations.

May 1, 2020
Fugro’s Brasiliis (LOA: 67 m, Call Sign: C6AP7) and Enterprise (LOA: 52 m, Call Sign: WDD9388) vessels will mobilize within its Lease Area and along potential Export Cable Route Corridors towards Atlantic City and Manasquan.

June 24, 2020
The Zephyr Westerly (LOA: 15 m, Call Sign: WDF7918) will mobilize for nearshore surveys off Atlantic City and Manasquan in water depths of 12 meters or less.

July 1, 2020
The Tidewater Royal (LOA: 77 m, Call Sign: WDD3653) will mobilize to conduct vibracore activities every 1 km along the proposed export cable routes.

July 10, 2020
The Geoquip Saentis (LOA: 80.5 m, Call Sign: C6UM8) will mobilize to drill 15 boreholes within the Atlantic Shores Lease Area.

The Lease Area is located about 9 to 20 miles off the New Jersey coast, between Barnegat Light and Atlantic City in water depths ranging from 60 to 100 feet (10–17 fathoms).

Track our vessels in real time at www.atlanticshoreswind.com/mariners
Atlantic Shores Offshore Wind holds the above Lease Area strategically positioned to meet the growing demands of renewable energy targets in New Jersey and New York.
