Mid-Atlantic Survey Activity
Mariners Briefing

Date of notice: August 17, 2020                  Notice no. 064

Overview

These briefings are intended to update mariners on marine operations for the Mid-Atlantic survey activities. Survey operations are planned for locations throughout the lease area (see chart) and are expected to last several months. These operations involve only the survey phase of the projects.

Mariners briefings are submitted as needed to the U.S. Coast Guard and distributed to the fishing community and interested mariners on our website at: us.orsted.com/mariners or via email upon request through Rodney Avila (RODAV@orsted.com).

Vessels will designate a working channel on VHF 16 daily at 0600 and 1800

About the wind farms

Ocean Wind (OCW), with the support of PSEG, is a planned offshore wind farm located 15 miles off the New Jersey coast. OCW will contain an offshore substation and a subsea transmission system able to deliver clean energy to the New Jersey electrical grid.

Ongoing OCW survey activities

- Projected Beginning: April 2019
- Projected End: September 2020

**Vision**

LB Vision is used for geotechnical surveying.
Flag: USA
LOA: 70 ft
Beam: 39 ft

Call Sign: WDF6746
IMO: 8990976

**Project:** Ocean Wind

---

**Henry Hudson**

RV Henry Hudson is used for the crew transfer vessel / on-site watch vessel for L/B Vision.
Flag: USA
LOA: 45 ft
Beam: 15 ft

Call Sign: WDG4894
MMSI: 367541190

**Project:** Ocean Wind

---

**Shearwater**

MV Shearwater is used for geotechnical surveying.
Flag: USA
LOA: 109 ft
Beam: 39 ft

Call Sign: WDF5838
IMO: 8993966

**Project:** Ocean Wind

**All Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels as they may be limited in their ability to maneuver (VRAM) and towing gear out to 300 meters behind the vessel. Vessels in the vicinity of the survey vessels should operate in a manner that will not endanger the vessel or associated equipment**
