Micro Finance Initiative

In the complex world we are living in, it can be difficult to know what direction to take to know what Investment company is trust worthy and who has the best answer to tackle the global health and international development. With your partnership, we have been able to plot a strategic path forward to define goals and develop result-oriented solutions. Take a look at this story below from a participant of our micro-finance initiative.

Bibata is the mother of Hamza O. Hamza is sponsored in school by Kingdom Investment. Bibata is one of the 17 women who benefited from the Micro finance initiative.

She lost one of her children and she is presently a widow and a mother of two. Life has not been easy for her and taking care of her two children has even been hard until the burden of seeing Hamza through school was taken off her through the sponsorship program of Kingdom Investment.

"The micro finance project was a relief to her and other women like her" she stated. With the money she received, Bibata bought beans which she now cooks and sell in a trolley. She said "this activity though small has helped in so many different ways." She is able to feed her children with what she cooks and still manages to make a small profit so as to meet her personal needs like soap to bath with, toothpaste, pomade and some other things which she had lacked before now. Being a widow is very hard as no one cares about you and you are left all on your own. But with this activity "I have started, I can raise my head in the community and maintain my dignity. This activity keeps me occupied and takes my mind off the negative things of life. I am a happier person, and so are my children. Thank you Kingdom Investment International and all who have contributed to making life better for us. God bless you." she continued.

Through our micro-finance initiative, many have been empowered as they are

now pursuing their dreams. Currently, 3 of 17 participants have already re-paid their loans in full before their payment deadline. The rest are on track to doing so well before the given deadline. 79 percent of the total loan has been collected.

Speaking Engagements

We hope that you received our letter asking for your help to spread the word of Kingdom Investment International. We are looking forward to speaking and sharing with your congregation. If you know of a group that would be interested in hearing more about our mission and vision please contact us today to schedule a visit. With your help and God's blessings we have no limits.

Academic Update

Academically, our children continue to excel in their classes. We are receiving great reports from the children's academic performance. 75 percent of our students are currently leading in their respective classes.

The academic year is almost over and we look forward to getting them prepared for another successful year. We will be getting their books and school supplies gathered so they have the tools to succeed.

Look for more to come from your child/children in their academic year-end letter.

Kingdom Investment International

Investing to Change Lives

New Website

In March we launched a new website, www.kingdominvestment.org. There are lots of new features including a PayPal button for easy donating, a Facebook feed, and articles from past newsletters. Our main goals of the new site is first to keep our current patrons well informed of new children awaiting sponsorship, current news, and to make it easier to send in your monthly child sponsorship payments. The second goal is that people interested in learning more about Kingdom Investment International will be able to explore the site and easily find our mission statement, children awaiting sponsorship, and the latest achievements through God almighty. If you have not yet taken the chance to, please stroll over to the new site and look around. If you know someone that is interested in learning more about us please direct them to our website.

Letters to the Children

Do you remember getting a letter when you were young? Remember how exciting it was to see your name on a piece of mail? Well the children you sponsor love to experience that just as much as you did. If you would like to send your child a letter please address them to:

— Put your child's name here —
C/O Mme Zoungrana Elise
01 4394 Ouagadougou 01
SONABHY
Burkina-Faso (West Africa)

Spotlight Child

Each month we like to highlight a child that is awaiting sponsorship. This month is Belem, who just celebrated her 11th birthday. She has a younger brother and sister and loves expressing her artistic side. She is growing strong and is in the fourth grade.

To learn more about Belem please see her full bio on our website. If you are interested in sponsoring her please contact us. She is waiting for a loving family that will help her reach her goals.

Praise and Prayer Requests

- We ask for God to continue to bless the recipients of our micro loans that they may be able to support their families and pay off their loans and make the money to be available to help more people.
- We ask that God continue to protect the families as they enter the hot months from the threat of malaria.
- We ask that God continue to work in the hearts of others that they help us spread God's wealth and raise the standard of living for those in Burkina-Faso.

Blessing From God

During the month of May, one of our children, A. Samade was hospitalized at the local hospital due to having a stomachache accompanied with vomiting. Kingdom Investment International was there by his side with his family. By God's grace, with prayer and prescribed medications Samade is now well and is back to school. While we strive to assist people with their socio-economic dilemmas, we believe the gospel of the Lord Jesus Christ is the answer to our world's most pressing problems. For that reason, we look for creative ways to preach the gospel and sow the seed with the children and families we are involved with. We are pleased to report that the entire family of Amssa Ouedraogo and Franck Zoma gave themselves to Jesus Christ during the month of May. The family has been attending services at a local church. Kingdom Investment's staff continue to mentor the family for their spiritual growth.
