FYI: Hair and makeup prep tips

\*Pictures are always helpful. Be sure to bring along photos that you like and do not like so we can pick a style that suits your own tastes, as well as what works with your hair texture, color, length, etc

\*Extensions are always recommended(real hair, not synthetic). If you're using brand new extensions, be sure to wash and dry them before the first use. This will help your style hold longer. Do not use any oils or serums, and be sure not to flat iron them before use (this will also make your curls fall faster)

\*Oily/greasy hair is extremely hard to style, tease, form, etc. Clean hair is preferred, however if you truly prefer dirtier hair, please be sure it is NO MORE than 1 day dirty. Also, please don't put any product in your hair beforehand other than mousse prior to blowdrying

\*Please don't use any sunscreen on your face before makeup application. Sunscreen can create a flashback in photos. Artist will prep your skin with moisturizer, etc.

\*Be sure you and your bridesmaids bring a lipstick to touchup with throughout the day. Lipstick application by the artist will not last all day. A translucent powder will also be helpful (nothing mineral based. This will also flashback in photos)

I, \_\_\_\_\_ have read, understand, and agree to all of the above terms and conditions.
