## EXPERIENCE

### CO-FOUNDER, USER EXPERIENCE DIRECTOR | FEB 2016 - PRESENT

Boogli, LLC - Grayton Beach, FL

- Creating mobile based interfaces and software solutions that allow customers the ability to interact with hardware products and charging devices
- Designed playful interface components that provide engagement opportunities within mobile based applications
- Architected entire workflow for single software platform across a variety of hardware product suites for ease of ongoing maintenance and distribution

### DIRECTOR OF UX & MOBILE INNOVATION | APR 2001 - PRESENT

Saforian, Inc. - Old Town Manassas, VA 20110

- Managed a diverse team of information architects, interaction designers, content strategists and front-end developers successfully completing over 700 client projects
- Conducted executive level management responsibilities that helped build the company to a 2 million dollar company
- Designed, implemented and executed end-to-end processes for handling client engagements

### SENIOR USER EXPERIENCE CONSULTANT | FEB 2003 - FEB 2004

Freddie Mac - McClean, VA 20110

- Orchestrated the creation of new processes that became the new standard for handing off all user interface deliverables to development teams
- Designed key interface elements that improved the overall usability
- Negotiated successful design changes between business leaders and engineering teams

### SENIOR USER INTERFACE DESIGNER | OCT 2001 - FEB 2003

AOL Time Warner - Ashburn, VA 20110

- Collaborated with remote team members creating the interface design for AOL photos and calendar products
- Generated cross-departmental design documentation that contributed to improved release cycles
- Coordinated and performed Usability tests that led to an improved user experience within the AOL photo product families
