

The Hartford is among the most recognized names in the insurance business. As an A+ rated carrier (A.M. Best) with this kind of reputation, just the offering of this market brings increased respect to your presentation. With Hartford, KZ has multi-state access to all their lines including General Liability, Property, Auto, Business Packages, Workers Compensation, Inland Marine, Professional Liability, and more for small business and middle market alike.

We have been very successful with The Hartford Packages for Manufacturing and Technology Classes as well as Real Estate and Mortgage Brokers. Over our several year history with The Hartford, we have written numerous other classes as well, especially when we add auto and mono-line property policies to the mix. For these we can write contractor classes and many others.

While The Hartford was our first GL / BOP type market they are also very aggressive in the Worker's Compensation market, with a broad range of classes for both mono-line and packaged risks. We are proud to be an appointed agency for their dynamic company.
