

Travelers is rated A+ XV by A.M. Best. KZ sees their strength including a broad, competitive package market, and being quite competitive with their Business Auto quotes.

Travelers' package appetite includes a wide variety of classes, including technology risks, restaurants, apartment buildings, auto service, wholesale distributors, retail stores and much more. Packages can be quoted with unusually high limits for similar programs.

Travelers' workers' compensation class appetite is relatively light; however, if you have workers' comp needs fitting the main-street-type classes of office, retail, restaurant, and other similar risks, you will want to submit to Travelers through KZ.
