## ABOUT:

I am a driven and ever-curious individual who believes in finding inspiration in uncommon places. I am passionate about creative problem solving and delivering unexpected results to our modern work force. I believe healthy, inspired, and interesting environments create an invaluable benefit to not just users, but to the organization itself and society as a whole.

## EDUCATION:

University of Cincinnati  
College of Design, Architecture, Art, and Planning  
Bachelors of Science in Interior Design - 2013

## EXPERIENCE:

### Unispace - SFO | Designer - Technical Specialist | 1/17 - Current

Unispace is a Designer-led design-build firm based out of Sydney, Australia. I joined after returning to San Francisco as I was interested in the methodology of Unispaces Design-Build model. I was able to work on several workplace strategy initiatives, participate in several Design proposals, QA and CA current projects, and work with the Delivery team on executing projects. Having access to experts proves to be an incredible learning opportunity.

### Pacific Crest Trail - Mobile | LASH | 5/16 - 10/16

A LASH or Long Ass Section Hiker is an individual who hikes a section of 1,000+ miles in a single season. This year I hiked 2,200 miles from Campo, CA to Ashville, OR before skipping up to Cascade Locks, OR then walking to Manning Park, BC. My time spent on trail allowed me to set and achieve goals, plan out multiple month schedules, and strategically allocate essential resources in order to complete my journey on time, alive, and in good health.

### MMoser Associates - SFO | Designer | 11/13 - 5/16

When I was brought on, the San Francisco office of MMoser was still very much starting up. I was the 5th employee and added so that we could address the growing work-load of the new office. Throughout my tenure at the office, I was able to accrue knowledge about the leading edge of modern office design and worked on many levels and scopes to deliver designs to clients in the law, tech, finance, and non-profit sectors.

### MMoser Associates - NYC | Co-op Designer | 8/12 - 12/12

For my final cooperative education experience, I wanted to try out a different market and work for a company that specialized in the interior environment rather than a specialty department of a larger organization.

### Ankrom Moisan Associated Architects - PDX | Co-op Designer | 1/12 - 6/12

Ankrom Moisan allowed me to work within many sectors of the AEC industry touching on Hospitality, Workplace, Multi-tenant residential, and Healthcare.

### Skidmore Owings Merrill, LLP - CHI | Co-op Designer | 1/11 - 6/11

The bulk of my experience focused on a massive VA Hospital being constructed outside of Denver, CO. Apart from that project I spent time prototyping towers slated for construction in Asia, and space planning banking facilities in Madrid, Spain, and test-fitting Government offices in Chicago.

### Fee, Munson, Ebert - SFO | Co-op Designer | 6/10 - 9/10

The first co-operative education experience I had focused on Boma Calcs in the Trans America building, and work on a high-end retail store in San Francisco.
