Dear Raquel:

I wanted to write you a short note to thank you for the wonderful job you did with my son's wedding. As it was held at a private residence a good bit away, I realize that our event presented some unique challenges. You and your staff handled everything with ease and we were amazed at your creativity and attention to detail from beginning to end. Having an outdoor venue brought some unforeseen circumstances (weather) and we were very pleased with how you handled all of the last minute adjustments with calm and competence. You completely set our minds at ease and made us feel confident in your experience and ability. We were especially impressed with your relationships with quality and reputable vendors in the area. You really put together an amazing team that created a wonderful final product. Please feel free to have them use you as a good reference on my behalf. Thank you again for creating such a special day for our family. We greatly appreciate all that you and your wonderful staff did for us. I would be happy to recommend you and your team to any of my friends in the future.

Sincerely,

Renee Bisciotti
