

Internship Description

Title: Stellar Solutions – Engineering Internship

Job Description: The internship will be held at the Stellar National Reconnaissance Office in Washington, DC. Tasks will require the intern to be a self-starter motivated to follow through on projects. The preferred candidate should have a background in intelligence, and familiar with all-source analysis. This internship is flexible throughout the summer months and may lead to a full-time position with Stellar Solutions.

Qualifications: (This internship is only open to Student Veterans: those students returning back to school using their GI Bill, after having served their country through military service). Must be an engineering major in either his/her junior, senior, or graduate level of college. Stellar is looking for a mechanical, electrical, and/or aerospace engineering student.

Required Documents: Resume, Copy of Transcript (Can be an unofficial copy), Copy of DoD Certificate of Release or Discharge from Active Duty (DD214 Member 4 or equivalent), 2 recommendation letters from non-family members
