

Peace of Mind

That's what a written insured warranty adds to the purchase of your new home!

As an approved Member in Residential Warranty Company, LLC, we are able to add this important feature to any home we build.

What does this mean for you? It means that:

- ☞ Your home was built by a professional who has met all criteria for membership by one of the largest most reputable warranty companies in the country.
- ☞ You will receive a written warranty document spelling out everything that is covered and how to get concerns addressed if any should arise.
- ☞ Your home's resale value may increase if sold within the warranty period as the RWC warranty is transferable.
- ☞ You have peace of mind, even in challenging economic times, that your home will have warranty protection for the entire warranty term.

Residential Warranty Company, LLC is a national warranty provider and an expert in the field of risk management.

In business for over 30 years, RWC has warranted in excess of 3 million homes.
