Introduction

This catalogue is the result of an 18-month study carried out between January 2013 and July 2014 for the EU Delegation to Russia. The study, developed within the project “*Completing the analysis and developing a catalogue of joint education programmes between Higher Education Institutions of the European Union and the Russian Federation,*” investigated Joint Programmes between Russian and European universities.

We performed desk research of 1000 state-accredited Russian university websites and a database resulting from a 2010 study on double degree programmes between Russian and European universities. We followed up this work

by surveying identified Joint Programmes with a thematic questionnaire. We also conducted a number of interviews (face-to-face, by Skype/phone and discussions during a range of workshops and conferences). The project team had the opportunity to talk to a wide range of players involved in the development of international collaborative programmes, including course coordinators, senior leaders and representatives of agencies from EU Member States in Russia, who were eager to share their experiences.

This catalogue complements the report produced on the study’s findings by offering a user-friendly source of information for students, as well as higher education

institutions in Russia and in Europe interested in a better understanding of opportunities for cooperation.

The development of international Joint Programmes creates tremendous possibilities for students and for institutions. Students gain new knowledge and skills from their exposure to universities in other parts of the world, either from mobility paths or through other forms of intercultural experiences delivered *at home*. Growing evidence demonstrates that an international education enhances students' opportunities on the labour market. Students are also the best ambassadors of Joint Programmes. We have included some reviews of their experience in EU-Russia Joint Programmes.

The development of Joint Programmes finds its place in the internationalisation strategies of universities eager to *open up* and transform their educational processes into modern and innovative approaches, across borders and institutions. There are many initiatives of collaborative programmes with universities in other parts of the world. These are highly dependent on the particular profile of a university, its organisational culture and the regional or national context in which it is located.

Yet the development of Joint Programmes is not without challenges. Collaborative programmes require serious thinking about the concrete motives to initiate development, a thorough needs' analysis, careful partner choice, solid design and robust management for long-term financial and organisational sustainability. *Jointness* is a step-by-step and gradual approach based on different institutional starting points. This catalogue does not make a distinction between the different types and developmental levels of Joint Programmes.

Cooperation between European and Russian HEIs is multifaceted and diverse. Our study has focused on degree programmes only. It has excluded the student exchange frameworks that are actively developed by many institutions and other types of cooperation.

Our catalogue is not an exhaustive database of all EU-Russia Joint Programmes. It is a compilation of the programmes for which the required information was received by the project team, both from the Russian university to which the questionnaire was sent first, and from the European partner universities to which the same questionnaire was sent afterwards. This approach allowed a mapping of cooperation patterns, perceptions,

challenges and benefits for both sides, reflected in the final report. The summarised information for each programme in Russian and English was sent to the programme coordinators in partner universities for the final confirmation. We offered the coordinators a “silent confirmation modality”: if the team received the delivery confirmation for the message containing the programme summary, and no request for any changes was sent back, the provided information was treated as accurate and correct.

All partner universities that are featured in the catalogue gave their consent to include their programmes in our publication. As such, the catalogue has been shaped by universities for both universities and students, based on the information that they decided to make available on their website and submit voluntarily to the project team.

On some minor technical issues: the names of Russian HEIs are changing regularly, along with changes in the higher education system itself. We have provided the official names for December 2013. We have been relying on the [ISCED 2011 UNESCO](#) classification to describe the Discipline/Area of study. For the English-language summary, we have relied primarily on the data provided by the European partner(s). The Russian-language summary is

based mainly on the information submitted by the Russian partner(s). There might be differences between the two summaries, though we have kindly requested both sides to review them thoroughly. Some programmes have been added at the very last stage of the study in May-June 2014. It was possible to add them only when both partners shared the same details and confirmed mutual alterations. In all other cases we had to reject the additions to avoid possible confusion.

In the case of multiple partners for one programme, some details might vary from partner to partner (e.g. the Programme Name in Russian, the fees, application deadline, Admission Requirements). The catalogue lists the most thorough Admission Requirements, the range of fees and the contact information for each partner university.

Several fee-based programmes provide the budget-subsidised placements; the details are available on the programmes’ websites or via the programmes’ coordinators.

The information on degrees awarded by each partner university is given in the original language to reflect the status of the document.

Some *tips* on navigating the catalogue: the programmes are organised according to the level of education they provide. Bachelor programmes are followed by those at Master level, and the Ph.D programmes conclude the list. All programmes are numbered throughout the catalogue. These numbers are used in several indices provided at the end of the catalogue to facilitate the search of programmes in a specific field of studies, geographic area, etc.

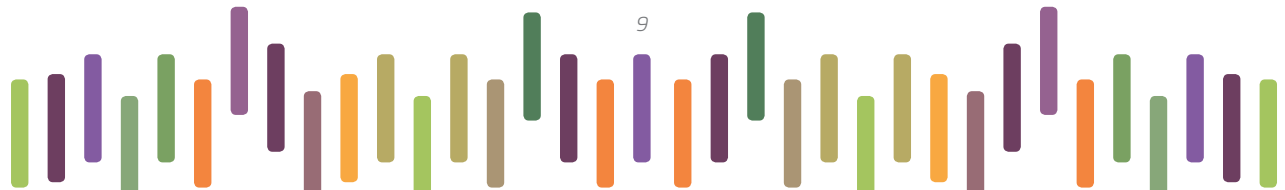

Our purpose was also to contribute to getting EU-Russia Joint Programmes off the ground and transform them into highly visible initiatives. This is the reason for including some new programmes that are about to start in the near future.

We hope that this publication will serve as a valuable reference tool that supports new opportunities for cooperation between European and Russian universities in the exciting field of international collaborative programme development.

BACHELOR PROGRAMMES

1. Accounting with Financial Management

Area / Fields of study:
Social sciences, business and law / Business and administration /
Accounting and financial management

Partner Universities:
University of Portsmouth
Financial University under the Government of the Russian
Federation

Europe: **United Kingdom**
Russia: **Moscow**

Tuition language(s): **English**

Mobility
for Europeans: **optional**
for Russians: **mandatory 2 semesters**

Admission Requirements:
Language certificate(s), Year 3 of degree
at the Financial University
Interview

Application deadline:
for Europeans: **April**
for Russians: **April**

Tuition fees (per semester):
for Europeans: **5 000 Euro**
for Russians: **5 500 Euro**

Scholarship: **not available**

Degrees awarded:
Bachelor of Arts (Hons) Accounting with Financial Management
Диплом бакалавра

Website: <http://www.port.ac.uk>

2. BACHELOR IN APPLIED LANGUAGES SPECIALISING IN INTERCULTURAL MANAGEMENT

Area / Fields of study: **Humanities and arts / Humanities / Foreign Languages**

Partner Universities: **Université de Limoges
Pyatigorsk State Linguistic University**

Europe: **France**
Russia: **North Caucasus**

Tuition language(s): **English, French, German, Russian, Spanish**

Mobility
for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates demonstrate knowledge of intercultural communication and understanding of main differences in the conceptual and linguistic depictions of the world in Russian and target languages.**

Admission Requirements: **Certificate of secondary education, Recommendation letter(s), Language certificate(s)**

Application deadline:
for Europeans: **30 May**
for Russians: **30 May**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **not available**

Degrees awarded:
Licence Langues Étrangères Appliquées au Management Interculturel
Бакалавр лингвистики

3. BACHELOR IN INTERNATIONAL HOTEL MANAGEMENT

Area / Fields of study: **Services / Personal services / Hotel and catering**

Partner Universities: **Vatel Russian International Academy for Tourism**

Europe: **France**
Russia: **Moscow**

Tuition language(s): **English, French, Russian**

Mobility
for Europeans: **optional 2–8 semesters**
for Russians: **optional 2 semesters**

Brief description of the programme: **Programme in the field of international hotel management. Programme graduates have a functional knowledge of French and English languages, are able to design organisational structures for hospitality enterprises and distribute responsibilities within an organisation.**

Admission Requirements: **Certificate of secondary education, Application form, CV/Resume, Motivation letter, Language certificate(s)**

Interview Application deadline:
for Europeans: **August**
for Russians: **August**

Tuition fees (per semester):
for Europeans: **5 000 Euro**
for Russians: **5 000 Euro**

Scholarship: **available**

Degrees awarded:
Bachelor in Hotel Management
Диплом о высшем образовании

4. BALTIC MANAGEMENT STUDIES

Area / Fields of study: **Social sciences, business and law / Business and administration / Management**

Partner Universities:

**Fachhochschule Stralsund — University of Applied Sciences
Petersburg State Transport University**

Europe: **Germany**

Russia: **North-West**

Tuition language(s): **English, Russian**

Mobility

for Europeans: **not applicable**

for Russians: **mandatory 1 semester**

Brief description of the programme:

Programme combines training in international management, intercultural communication, financial management and ensures command of at least one Baltic language. Programme graduates are able to analyse world and regional economic trends, as well as financial and managerial accounting information, and make decisions grounded in such analysis.

Admission Requirements: **Application form, CV/Resume, official transcripts of grades**

Application deadline:
for Europeans: **31 August**
for Russians: **15 May**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Bachelor Degree
Диплом бакалавра**

5. CIVIL AND CONSTRUCTION ENGINEERING

Area / Fields of study: **Engineering, manufacturing and construction / Architecture and building / Civil engineering**

Partner Universities: **Saimaa University of Applied Sciences**
1. Petersburg State Transport University
2. St. Petersburg State Polytechnical University

Europe: **Finland**
Russia: **North-West**

Tuition language(s): **English**

Mobility
for Europeans: **not applicable**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **The programme prepares civil engineers ready to assume positions of project engineers or project managers. Programme graduates are able to carry out technical and economic analysis to estimate project costs, prepare technical documentation, develop project designs, monitor and ensure compliance of projects, as well as technical documentation to applicable standards, technical requirements and normative acts.**

Admission Requirements: **Application form, CV/Resume, Transcript of records, a copy of a valid identification document, Interview**

Application deadline:
for Europeans: **not applicable**
for Russians: **10 April**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **not available**

Degrees awarded: **Bachelor of Engineering**
Диплом бакалавра по направлению «Строительство»

6. DOUBLE DEGREE PROGRAMME IN MANAGEMENT / BUSINESS ADMINISTRATION

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **Hochschule für Technik und Wirtschaft Berlin,
University of Applied Sciences
Kuban State University**

Europe: **Germany**
Russia: **South**

Tuition language(s): **German, Russian**

Mobility

for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are able to plan operations and design structure of an organisation and its units, design and implement innovative business management methods, apply international principles and standards of financial accounting, as well as adapt them to the national framework in order to form accounting policies and procedures in an organisation.**

Admission Requirements: **Motivation letter, Language certificate(s), Transcript of study achievements at home university**

Application deadline:
for Europeans: **30 April**
for Russians: **10 January**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **not available**

Degrees awarded: **Bachelor of Arts in Business Administration
Диплом бакалавра по направлению «Менеджмент»**

7. DOUBLE DEGREE BACHELOR PROGRAM IN MANAGEMENT

Area / Fields of study: **Social sciences, business and law / Business and administration / Management**

Partner Universities: **Université d'Auvergne Clermont 1, School of Management
Moscow State University of Economics, Statistics and Informatics (MESI)**

Europe: **France**
Russia: **Moscow**

Tuition language(s): **French**

Mobility

for Europeans: **optional**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are able to apply business process analysis tools in management systems, as well as methods for data collection, storage and processing in management.**

Admission Requirements: **Certificate of secondary education, CV/ Resume, Motivation letter, Language certificate(s), copy of identity card, copies of qualification certificates, official transcripts of grades obtained in the last years of study**

Application deadline:
for Europeans: **not applicable**
for Russians: **30 June**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **393 Euro**

Scholarship: **not available**

Degrees awarded: **Bachelor degree**
Диплом бакалавра

Website: **none**

10. ECONOMICS

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **Université de Nice Sophia Antipolis / Institute of economics and management**

1. Khabarovsk State Academy of Economics and Law
2. East Siberian State University of Technology and Management
3. Baikal State University of Economics and Law
4. North-Eastern Federal University named after M.K. Ammosov
5. Peoples' Friendship University of Russia

Europe: **France**

Russia: **1, 4. Far East. 2, 3. Siberia. 5. Moscow**

Tuition language(s): **French**

Mobility

for Europeans: **not applicable**

for Russians: **optional 1 semester or 1 year**

Brief description of the programme: **Programme in Russian and international economics. Students learn about the world trade market climate and dynamics, conditions for raising competitiveness of goods and services, as well as forms of international trade and transactions. Programme graduates have the knowledge and skills to work as analysts, researchers, and administrative or management staff.**

Admission Requirements: **Application form, Language certificate(s)**

Application deadline:

for Europeans: **not applicable; for Russians:** **not applicable**

Tuition fees (per semester):

for Europeans: **not applicable; for Russians:** **550 Euro**

Scholarship: **not available**

Degrees awarded: **Licence d'économie et gestion**

диплом бакалавра по направлению 'Экономика', профиль 'Мировая экономика' или 'Финансы'

14. INDUSTRIAL ENGINEERING

Area / Fields of study: **Social sciences, business and law / Business and administration / Management**

Partner Universities: **Technical University of Applied Sciences Wildau
Saint-Petersburg State Economic University**

Europe: **Germany**
Russia: **North-West**

Tuition language(s): **German, Russian**

Mobility
for Europeans: **not applicable**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **The programme prepares practitioners for enterprises engaged in automotive manufacturing and assembly, automobile component manufacturing and technical maintenance in the capacity of middle managers. Programme graduates demonstrate knowledge of enterprise economics, as well as technical, technological and organisational understanding of machine manufacturing.**

Admission Requirements: **Certificate of secondary education, Application form, CV/Resume, Motivation letter, Interview**

Application deadline:
for Europeans: **not applicable**
for Russians: **no information**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **50 000 RUB**

Scholarship: **available**

Degrees awarded: **Bachelor of Engineering
бакалавр производственный менеджмент**

16. INFORMATION TECHNOLOGY AND CIVIL ENGINEERING

Area / Fields of study: **Engineering, manufacturing and construction / Architecture and building / Civil engineering**

Partner Universities: **Technische Universität Berlin
Moscow State University of Civil Engineering**

Europe: **Germany**
Russia: **Moscow**

Tuition language(s): **German, Russian**

Mobility

for Europeans: **optional 1 semester**
for Russians: **optional 1 semester**

Brief description of the programme: **The programme prepares specialists for construction management; provides advanced language training. Programme graduates are able to apply techniques involved in standardisation and preparation for certification of technical tools, systems, processes, equipment and materials.**

Admission Requirements: **Application form, Language certificate(s)**

Application deadline:
for Europeans: **1 January and 1 July**
for Russians: **1 December**

Tuition fees (per semester):
for Europeans: **no information**
for Russians: **250 Euro**

Scholarship: **not available**

Degrees awarded: **Certificate**

WHY ENTER A JOINT PROGRAMME? STUDENTS' EXPERIENCE

International experience is a must in the global world

Catharina studied abroad and was interested in learning more about life in different countries. She says, "Two degrees were attractive to have. The fellowship came together with the Joint Programme, which was very appealing."

For *Max*, the programme seemed like an attractive complement to his previous experience. Two degrees gave him more opportunities in both partner countries, serving as an additional asset for future employers in the globalised economy. He says, "it was interesting to live in Russia for a year."

It gives access to new knowledge and skills

Roman entered the Joint Programme to gain a new understanding of the field he was studying, as the teaching differs between the two countries.

For *Elena*, the Joint Programme allowed her to review the core subjects from different angles and in more detail.

Dmitriy's specialisation at the home HEI was different from that offered at the Joint Programme, so he mastered new skills.

It makes a graduate more competitive in the labour market

For *Sergius*, the second degree was highly attractive, especially when such programmes are so rare. He says, "it allows a graduate to rise above the crowd."

For *Roman*, the EU degree removed the limitations in Europe and created additional opportunities in Russia. He says, "it adds a point to a resume and is appreciated by employers in Russia and abroad."

It's prestigious

For *Yaroslav*, it is the only programme in translation with a European partner in Russia, so both the teachers and the students are very proud of it. Everybody wants to enter the programme, which is highly competitive.

It offers more opportunities to meet individual career goals

Tatiana wanted to study in France, but did not want to do a complete programme abroad. She chose the Double Degree programme, which expects the students to enter the professional career in Russia, thus matching *Tatiana's* plans.

Olga had previous exchange experience and appreciated the opportunity to complete a Double Degree programme without physical mobility, which was easier and more comfortable.

It helps in mastering foreign languages

Elena says, "I studied International Economics and was (and still am) deeply in love with the French language, so when I saw an announcement of this Double degree programme I decided to give it a try to enlarge my knowledge in Economics and practise French at the same time."

Evgenia always wanted to learn foreign languages, but never had a real opportunity. The Joint Programme offered an ideal solution: "not just learning the language, but mastering it for future professional development."

Natalia believes that foreign language is one of the tools for professional development, and nowadays everybody has to use as many tools as possible to be competitive.

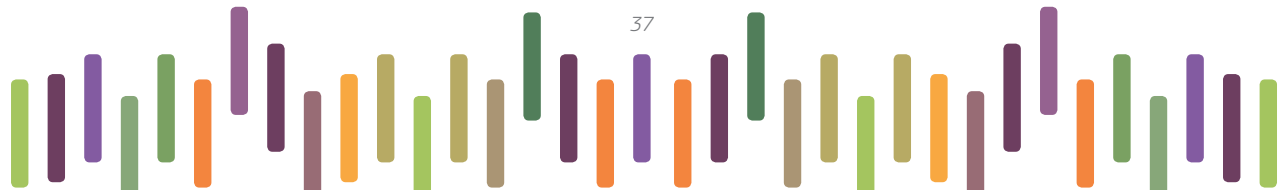

It is something new and unknown

The joint programme offers new opportunities. *Nikolai* believes that opportunities need to be explored. He says, "Even in the worst case scenario, a student abroad gets cultural experience, exposure to different learning styles, teaching and expertise. In a better case, s/he will get an additional degree that could be very helpful in job searches and other endeavours during the life course."

It helps your self-development

Vladimir says, "Test yourself! Get a chance to travel and learn more about the world! Take the Joint Programme to see what your knowledge is worth globally. Enlarge your professional and social network. Live on your own in the unknown environment — go for a mini-trial! "

MASTER PROGRAMMES

25. BUSINESS IN EMERGING MARKETS

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **FH Joanneum, University of Applied Sciences Voronezh State University**

Europe: **Austria**
Russia: **Central**

Tuition language(s): **English**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **Programme graduates are able to use modern methods of corporate financial management to provide strategic solutions, develop strategies for economic agents acting in developing markets, and develop corporate strategy.**

31. COUNSELLING

Area / Fields of study: **Social sciences, business and law / Social and behavioural studies / Psychology**

Partner Universities: **University of Manchester**
The Institute 'The Moscow School of Social and Economic Sciences', Non-governmental educational establishment

Europe: **United Kingdom**
Russia: **Moscow**

Tuition language(s): **Russian**

Mobility
for Europeans: **optional**
for Russians: **optional**

Brief description of the programme: **Programme graduates are able to practise across various subfields of consulting psychology by adapting and modifying available research and applied methodology. They are able to formulate well-informed psychological recommendations for practical purposes.**

Admission Requirements: **Bachelor's degree, Specialist Degree, Masters' degree, Application form, Questionnaire, Interview**

Application deadline:
for Europeans: **10 September**
for Russians: **10 September**

Tuition fees (per semester):
for Europeans: **64 000 RUB**
for Russians: **64 000 RUB**

Tuition language(s): **English, French**

Mobility
for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **Programme graduates are able to apply modern software suite development technologies using CASE-tools, control the quality of developed software products, as well as organise and manage teams of software and hardware developers of IT and automated systems.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:
for Europeans: **31 May**
for Russians: **31 May**

Tuition fees (per semester):

for Europeans: **250 Euro**
for Russians: **no information**

Scholarship: **not available**

Degrees awarded: **Master degree
диплом магистра по направлению 'Информационно-управляющие системы'**

Website: <http://www.univ-lemans.fr>

Contact information:

36. DOUBLE DEGREE PROGRAMME IN APPLIED MECHANICS

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **Université du Maine
Rostov State Transport University**

Europe: **France**
Russia: **South**

Tuition language(s): **English, French**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **Programme graduates are able to independently learn and apply modern theories and methods of physics and mathematics, computational methods, new systems of computer-aided mathematics, computer-aided design and computer-aided engineering (CAD/CAE systems) to offer effective professional solutions.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:
for Europeans: **31 May**
for Russians: **31 May**

Tuition fees (per semester):
for Europeans: **250 Euro**
for Russians: **no information**

Scholarship: **not available**

Degrees awarded: **Master degree**
диплом магистра по направлению 'Динамика и прочность машин'

Website: <http://www.univ-lemans.fr>

Contact information:

**Prof. Nirina
Randrianantoandro**

Tel.: +33 (0) 243833570

E-mail: nirina@univ-lemans.fr

Dr. Dmitry Kolosov

+7 (8632) 72 64 30

E-mail: md@rgups.ru

37. DOUBLE DEGREE PROGRAMME

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Chemical engineering**

Partner Universities: **Université du Maine**

- 1. Volgograd State Technical University.**
- 2. Saint-Petersburg State Institute of Technology (Technical University)**

Europe: **France**

Russia: **1. South. 2. North-West**

Tuition language(s): **English, French**

Mobility

for Europeans: **mandatory 1 semester**

for Russians: **mandatory 1 semester**

Brief description of the programme: **Programme graduates demonstrate a broad understanding of polymer synthesis, structure and properties and are able to identify their practical applications in research and development. They are able to apply appropriate methods to analyse and solve chemical, technological, social and economic problems currently addressed or anticipated in industry and science.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:

for Europeans: **31 May; for Russians:** **31 May**

Tuition fees (per semester):

for Europeans: **250 Euro**

for Russians: **no information**

Scholarship: **not available**

Degrees awarded: **Master degree**

Диплом магистра по направлению 240100 'Химическая технология'

Website: <http://www.univ-lemans.fr>

Contact information:

Prof. Nirina
Randrianantoandro

Tel.:
+33 (0) 243833570

38. DOUBLE DEGREE TIME

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **1. École Centrale Paris, ECP.
2. Ecole Centrale de Lyon, ECLy. 3. École Centrale de Nantes, ECN.
4. École Centrale de Lille, ECLi. 5. École Centrale de Marseille, ECM
Bauman Moscow State Technical University**

Europe: **France**
Russia: **Moscow**

Tuition language(s): **Russian, French**

Mobility
for Europeans: **mandatory 4 semesters**
for Russians: **mandatory 4 semesters**

Brief description of the programme: **Programme graduates demonstrate fundamental knowledge of various disciplines, developed communication skills and high managerial potential; are fluent in 2 foreign languages; have research experience in European companies and scientific laboratories.**

Admission Requirements: **Certificate of secondary education, Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Academic transcripts, Students' rating, Passport copy, Interview**

Application deadline:
for Europeans: **March**
for Russians: **October**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Ingenieur Generaliste Diploma
Диплом специалиста или магистра по соответствующему направлению**

Website: <https://www.time-association.org/dd/>

Contact information:

1. Mr. Marc ZOLVER, Deputy Director of International Affairs ECP.

39. DOUBLE DIPLOMA

Area / Fields of study: **Science / Physical Sciences / Chemistry**

Partner Universities: **University of Strasbourg
Kazan (Volga Region) Federal University**

Europe: **France**

Russia: **Volga**

Tuition language(s): **English, French**

Mobility

for Europeans: **mandatory 2 semesters**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **The programme equips graduates with skills in computer modeling of compounds with specified chemical, physical and biological properties (e.g. medicines with a specified bioactivity level). It trains to apply adequate methods and tools of molecular modeling (in quantum chemistry, force field modeling) and of chemical informatics.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Language certificate(s), specialist's degree (in Russia), Interview**

Application deadline:

for Europeans: **1 April**

for Russians: **1 April**

Tuition fees (per semester):

for Europeans: **220 Euro**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master in Chemoinformatics**

Диплом магистра по направлению 020100 «Химия» профиля «Хемоинформатика и молекулярное моделирование»

Website: **none**

Contact information:

Prof. Alexandre Varnek

Tel.: no information

40. EAST EUROPEAN STUDIES: HISTORY-MEDIA

Area / Fields of study: **Humanities and arts / Humanities / History**

Partner Universities: **University of Konstanz
Russian State University for the Humanities**

Europe: **Germany**
Russia: **Moscow**

Tuition language(s): **English, German, Russian**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **The programme adopts an interdisciplinary approach to historical studies and provides a fundamental linguistic training.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:
for Europeans: **15 July**
for Russians: **1 September**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Arts**

диплом международной магистерской программы РГГУ в области восточноевропейских исследований по направлению 'История'

Website: <http://www.studium.uni-konstanz.de/studienangebot/studiengaenge-abschluesse/studiengaenge-a-z/osteuroopa-geschichte-medien-master/>

41. ECONOMICS AND BUSINESS REGULATION

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **Université de Lorraine
Tyumen State University**

Europe: **France**

Russia: **Urals**

Tuition language(s): **French, Russian**

Mobility

for Europeans: **optional 2 semesters**

for Russians: **optional 1 semester**

Brief description of the programme: **Programme graduates are able to set up and provide legal counsel to companies under different types of business ownership and in various industries.**

Admission Requirements: **Masters' degree, Interview**

Application deadline:

for Europeans: **June**

for Russians: **June**

Tuition fees (per semester):

for Europeans: **500 Euro**

for Russians: **500 Euro**

Scholarship: **not available**

Degrees awarded: **Master en économie — spécialité CECO**

Диплом

Website: **none**

Contact information:

Prof. Pierre Tifine

42. ECONOMICS FOR TOURISM

Area / Fields of study: **Services / Personal services / Hotel and catering**

Partner Universities: **University of Milano-Bicocca
Russian International Academy for Tourism**

Europe: **Italy**
Russia: **Moscow**

Tuition language(s): **English, Italian**

Mobility

for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are competent project managers, able to provide integrated plans of recreational programmes, interact with governmental institutions and bodies, and create sustainable development plans for tourism destinations.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Interview**

Application deadline:
for Europeans: **30 May**
for Russians: **30 May**

Tuition fees (per semester):
for Europeans: **2 952 Euro**
for Russians: **no information**

Scholarship: **available**

Degrees awarded: **Laurea magistrale in Economia del Turismo**
Диплом о высшем профессиональном образовании

Website: <https://www.unimib.it/go/46460/Home/Italiano/Menu-sinistra/Internazionalizzazione/Mobilita-internazionale/Doppia-laurea-RIAT>

43. ECONOMY OF ENTERPRISES, QUALITY AND INNOVATION

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **Sapienza University of Rome
Saint-Petersburg State Economic University**

Europe: **Italy**

Russia: **North-West**

Tuition language(s): **English**

Mobility

for Europeans: **optional 1 semester**

for Russians: **optional 1 semester**

Brief description of the programme: **The programme prepares graduates in planning, organising and advancing business projects, as well as the development and implementation of quality management systems, restructuring of business processes and implementation of innovative technologies in enterprises. Graduates are able to work in such structural units as departments for strategic analysis, office of competition analysis and competition research, office of innovative development, etc.**

Admission Requirements: **Bachelor's degree, Interview**

Application deadline:

for Europeans: **June**

for Russians: **June**

Tuition fees (per semester):

for Europeans: **2 000 Euro**

for Russians: **2 000 Euro**

Scholarship: **not available**

Degrees awarded: **Master degree**

Диплом магистра экономики по направлению 'Экономика'

44. ELECTRIC POWER GENERATION AND TRANSPORTATION

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Electricity**

Partner Universities: **Czech Technical University in Prague
National Research Tomsk Polytechnic University**

Europe: **Czech Republic**

Russia: **Siberia**

Tuition language(s): **English**

Mobility

for Europeans: **mandatory 2 semesters**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **The programme prepares professionals equally competent in organisational management and technical aspects of the electric power and electronics industries. Graduates apply an integrated view of economic, social and ecological factors for developing solutions in the field.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Language certificate(s)**

Application deadline:

for Europeans: **31 March**

for Russians: **31 March**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Science**

диплом магистра техники и технологии по направлению 'Электроэнергетика и электротехника' (Оптимизация развивающихся систем электроснабжения) / Master of Science in Electrical Power Engineering (Optimization of developing systems of electrical supply)

Website: <http://portal.tpu.ru>

45. APPLIED MATHEMATICS FOR ENERGY STRATEGIES

Area / Fields of study: **Science/ Mathematics and Statistics**

Partner Universities: **ENSMF Mines ParisTech
Novosibirsk State University**

Europe: **France**
Russia: **Siberia**

Tuition language(s): **French, Russian**

*Mobility
for Europeans:* **not applicable**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **The first year takes place at the Novosibirsk State University (NSU), with a strong focus on theoretical courses. The second year is based in Mines ParisTech and consists of several modules and internships. After defending the master's thesis at Mines ParisTech, the student returns to the NSU to defend the same final work. The programme graduates apply the acquired knowledge and skills in the fields of Geostatistics, Energy Technologies and Energy Economics.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Interview**

Application deadline:

for Europeans: **not applicable**
for Russians: **1 May**

Tuition fees (per semester):
for Europeans: **not applicable**
for Russians: **19 252 RUB**

Scholarship: **available**

Degrees awarded: **Diplôme du Master Stratégies Énergétiques Mines ParisTech**

Магистр по направлению подготовки 010400 — «Прикладная математика и информатика»

Website: <http://www.masterenergy.eu>

Contact information:

46. ENERGY SYSTEMS

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Electricity**

Partner Universities: **FH Aachen — Aachen University of Applied Sciences
National Research Tomsk Polytechnic University**

Europe: **Germany**
Russia: **Siberia**

Tuition language(s): **English**

Mobility
for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **This master programme in English prepares specialists in electrical discharge machining (EDM) and plasma beam machining. Programme graduates are able to conduct research in the field of EDM and plasma beam machining and their applications, and supervise industrial application and operation of new high-tech innovations at an international level.**

Admission Requirements: **Bachelor's degree**

Application deadline:

for Europeans: **check:** www.fh-aachen.de

for Russians: **check:** www.tpu.ru

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **not available**

Degrees awarded: **Master of Science in Energy Systems
диплом магистра по направлению 'Электроэнергетика и электротехника', профиль 'Техника и физика высоких напряжений'**

Website: <http://www.fh-aachen.de>

47. ENERGY TECHNOLOGY

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **Lappeenranta University of Technology**

- 1. South Ural State University (National Research University)**
- 2. Saint-Petersburg State Technological University of Plant Polimers**
- 3. National Research University 'Moscow Power Engineering Institute'**
- 4. St. Petersburg State Polytechnical University**

Europe: Finland
Russia: 1. Urals. 2, 4. North-West. 3. Moscow

Tuition language(s): **English**

Mobility

for Europeans: **not applicable**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are prepared to become practitioners in the field, as the master thesis research is conducted in collaboration with enterprises (Finnish and Russian divisions of the Fortum corporation).**

Admission Requirements: **Bachelor's degree, Application form, Language certificate(s), Interview**

Application deadline:

for Europeans: **12 March; for Russians:** **12 March**

Tuition fees (per semester):

for Europeans: **none; for Russians:** **none**

Scholarship: **available**

Degrees awarded: **Master of Science (MSc) in Technology (Bio-Energy Technology). Диплом магистра по направлению 141100 'Энергетическое машиностроение'**

Website: <http://www.lut.fi/web/en/admissions/masters-studies/m-sc-in-technology/energy-technology>

48. ENGINEERING SCIENCE

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **Technische Universität Berlin
National Research Tomsk Polytechnic University**

Europe: **Germany**
Russia: **Siberia**

Tuition language(s): **English, German, Russian**

Mobility

for Europeans: **optional 2 semesters**
for Russians: **optional 2 semesters**

Brief description of the programme: **Programme in the field of new materials processing technology and its industrial applications. Programme graduates are able to develop modern technology for development and processing of new materials, conceptualise and solve innovative engineering problems, as well as design and operate equipment and instruments for surface treatment of materials and products from these materials.**

Admission Requirements: **Bachelor's degree, Interview**

Application deadline:
for Europeans: **30 April**
for Russians: **31 May**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Science**

диплом по направлению 'Машиностроение'

Website: http://www.reibungsphysik.tu-berlin.de/menue/studium_und_lehre/international/#256850

E-mail: cam@tpu.ru

49. ENVIRONMENTAL MANAGEMENT

Area / Fields of study: **Services / Environmental protection**

Partner Universities: **Christian-Albrechts-Universität zu Kiel
Irkutsk State University**

Europe: **Germany**
Russia: **Siberia**

Tuition language(s): **English, Russian**

Mobility

for Europeans: **optional 1 semester**
for Russians: **optional 1 semester**

Brief description of the programme: **The programme focuses on physical and chemical processes defining the properties and composition of natural aquatic bodies and incorporates the studies of the structure and evolution of aquatic ecosystems of the Baikal region. The students master meso-scale models of the hydro- thermodynamic processes and movement of anthropogenic contaminants in the atmosphere and hydrosphere, as well as mathematical methods and modelling.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Language certificate(s)**

Application deadline:

for Europeans: **30 April**
for Russians: **15 August**

Tuition fees (per semester):

for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Science in Environmental Management/
Management natürlicher Ressourcen
диплом магистра по направлению 'Экология и
природопользование'**

Website: [http://www.sustainability.uni-kiel.de/taught-masters/

50. ERASMUS MUNDUS MASTERS COURSE 'MECHATRONIC ENGINEERING'

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Mechatronics**

Partner Universities: **Karlsruhe University of Applied Sciences, ENSMM de Besançon, Universidad de Oviedo Ivanovo State Power Engineering University**

Europe: **Germany, France, Spain**
Russia: **Centre**

Tuition language(s): **English, French, German, Russian, Spanish**

Mobility
for Europeans: **optional 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are able to create modern mechatronic devices and solve complex technical problems in the field of microchip controllers and information processors.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Interview**

Application deadline:
for Europeans: **30 June**
for Russians: **30 June**

Tuition fees (per semester):
for Europeans: **2 000 Euro**
for Russians: **4 000 Euro**

Scholarship: **available**

Degrees awarded: **Master of Science in Mechatronic Engineering**
Диплом магистра

51. EUROPEAN MASTER IN INTERNATIONAL MANAGEMENT (EMIM)

Area / Fields of study: **Social sciences, business and law / Business and administration / Management**

Partner Universities: **1.HTW Dresden, 2. IPAG Business School Plekhanov Russian University of Economics**

Europe: **Germany, France**
Russia: **Moscow**

Tuition language(s): **English, German**

Mobility
for Europeans: **mandatory 3 semesters**
for Russians: **mandatory 3 semesters**

Brief description of the programme: **Programme graduates are able to create a balanced scorecard system for enterprises, conduct business operations and financial analysis of companies and their processes, carry out marketing research with a focus on price setting and customer preference analysis, as well as sales forecasting, sales channels, and opening of new markets.**

Admission Requirements: **Bachelor's degree, Specialist' degree, Masters' degree, Application form, CV/Resume, Motivation letter, Language certificate(s), Interview**

Application deadline:
for Europeans: **1) 30 May, 2) 20 June**
for Russians: **26 June**

Tuition fees (per semester):
for Europeans: **1) none; 2) 3 900 Euro**
for Russians: **120 000 RUB**

Scholarship: **available**

Degrees awarded:
1. Master of Arts (M.A. / International Business)
2. Diplôme de Formation Supérieure au Management (DFSM)
Диплом магистра менеджмента

Website: http://business.rea.ru/admission/magistracy/master-programs/triple_diploma.htm

52. EUROPEAN UNION STUDIES

Area / Fields of study: **Social sciences, business and law / Social and behavioural sciences / Peace and conflict studies**

Partner Universities: **Université Libre de Bruxelles
Tomsk State University**

Europe: **Belgium**

Russia: **Siberia**

Tuition language(s): **English, French**

Mobility

for Europeans: **mandatory 2 semesters**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are able to perform applied analysis and research to facilitate political, trade, economic, scientific or humanitarian cooperation between Russia and EU Member States. They are competent managers and decision makers in the process of promoting the interests of governmental, non-governmental and commercial organisations internationally.**

Admission Requirements: **Bachelor's degree**

Application deadline:

for Europeans: **not applicable**

for Russians: **no information**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of European Studies**

Диплом магистра в области международных отношений (специализация 'Европейские исследования')

58. GEOLOGICAL AND GEOPHYSICAL PROBLEMS OF OIL AND GAS FIELD DEVELOPMENT

Area / Fields of study: Science / Physical sciences / Geology, Geophysics

Partner Universities: Heriot-Watt University
National Research Tomsk Polytechnic University

Europe: United Kingdom
Russia: Siberia

Tuition language(s): Russian, English

Mobility
for Europeans: not applicable
for Russians: not applicable

Brief description of the programme: Programme prepares specialists capable of providing engineering solutions in the field of oil and gas technologies at the development and extraction stages.

Admission Requirements: Bachelor's degree, Specialist' degree, Application form, CV/Resume, Interview

Application deadline:
for Europeans: not applicable; *for Russians:* 15 April

Tuition fees (per semester):
for Europeans: not applicable; *for Russians:* 45 700 RUB

Scholarship: available

Degrees awarded: Master degree
Диплом магистра по направлению 13 10 00
'Нефтегазовое дело'

97. MASTER OF DIGITAL TECHNOLOGIES APPLIED TO HISTORY

Area / Fields of study: **Humanities and arts / Humanities / History**

Partner Universities: **École nationale des chartes
Russian State University for the Humanities**

Europe: **France**
Russia: **Moscow**

Tuition language(s): **French, Russian**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **The programme prepares graduates to apply historic knowledge using modern computer technologies. Programme graduates are able to use modern methods of historical research, become competent users of IT systems, present historic sources online as exhibitions or publications, and describe informational resources in traditional and electronic formats in compliance with international norms.**

Admission Requirements: **Bachelor's degree, Masters' degree, Application form, CV/Resume, Motivation letter, Language certificate(s), Interview**

Application deadline:

for Europeans: **15 March**
for Russians: **15 March**

Tuition fees (per semester):

for Europeans: **254 Euro**
for Russians: **254 Euro**

Scholarship: **available**

Degrees awarded: **Master Technologies Numériques Appliquées à l'Histoire**

Диплом магистра по направлению 'История' об окончании совместной магистерской программы 'История и новые технологии' (Россия — Франция)

98. MASTER OF ECONOMICS AND MANAGEMENT SCIENCE

Area / Fields of study: **Social sciences, business and law / Social and behavioural studies / Economics**

Partner Universities: **Humboldt-Universität zu Berlin
National Research University Higher School of Economics (HSE)**

Europe: **Germany**
Russia: **Moscow**

Tuition language(s): **English, German**

Mobility

for Europeans: **optional 2 semesters**
for Russians: **optional 2 semesters**

Brief description of the programme: **The programme is designed for master students at the Economics and Management departments of HSE. Students spend the first year at HSE following the curriculum agreed by the consortium, and during the second year study at the Humboldt University in Berlin.**

Admission Requirements: **Bachelor's degree, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Interview**

Application deadline:
for Europeans: **not applicable**
for Russians: **31 March**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **not available**

99. MASTER OF ENGINEERING

Area / Fields of study: **Science / Computing**

Partner Universities: Hochschule für Telekommunikation Leipzig, University of Applied Sciences; Telecom Lille
1. The Bonch-Bruevich Saint-Petersburg State University of Telecommunications. 2. Siberian State University of Telecommunications and Information Sciences

Europe: **Germany, France**
Russia: **1. North-West. 2. Siberia**

Tuition language(s): **German**

Mobility

for Europeans: **optional 2 semesters**
for Russians: **optional 2 semesters**

Brief description of the programme: Programme graduates are able to acquire knowledge about state-of-the-art developments in telecommunication systems and networks, implement new principles of construction, information transmission and distribution in telecommunication systems of different types, develop new models of different technological processes, and use applied software suites for analysis and synthesis of telecommunication systems and networks.

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s)**

Application deadline:

for Europeans: **May; for Russians:** **May**

Tuition fees (per semester):

for Europeans: **none; for Russians:** **none**

Scholarship: **not available**

Degrees awarded: **Master of Engineering**

Диплом магистра по направлению 'Инфокоммуникационные технологии и системы связи'

104. MASTER PROGRAM IN OPTICS AND NANOSCIENCES

Area / Fields of study: **Science / Physical Sciences**

Partner Universities: **École Polytechnique
Novosibirsk State University**

Europe: **France**
Russia: **Siberia**

Tuition language(s): **English**

Mobility
for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **The objective of the programme is to provide students with general basic knowledge in physics, with orientation towards optics. In the second year, students get a more specific specialisation in optics.**

Admission Requirements: **Bachelor's degree**

Application deadline:
for Europeans: **15 February and 1 May**
for Russians: **15 February and 1 May**

Tuition fees (per semester):
for Europeans: **1 950 Euro**
for Russians: **19 252 RUB**

Scholarship: **available**

Degrees awarded: **Master degree**

109. NETWORK FOR MASTER TRAINING IN TECHNOLOGIES OF WATER RESOURCES MANAGEMENT

Area / Fields of study: **Engineering, manufacturing and construction / Architecture and building / Civil engineering**

Partner Universities: **University of Genoa; Middlesex University; Slovak University of Technology in Bratislava**
1. Ural Federal University named after the first President of Russia B.N.Yeltsin;
2. Tambov State Technical University

Europe: **Italy, United Kingdom, Slovakia**

Russia: **1. Urals 2. Centre**

Tuition language(s): **English, Russian**

Mobility

for Europeans: **optional 1 semester**

for Russians: **optional 1 semester**

Brief description of the programme: **The programme prepares experts in the field of water resource management, sustainable water resource development, wastewater treatment with traditional and innovative membrane treatment methods for the purposes of household, industrial and agricultural use.**

Admission Requirements: **Bachelor or Specialist degree; for Europeans: a certificate of Russian as a foreign language, Interview**

Application deadline: **for Europeans: 1 August; for Russians: 1 August**

Tuition fees (per semester):

for Europeans: **43 000 RUB; for Russians: 43 000 RUB**

Scholarship: **not available**

Degrees awarded: **Certificate of attending joint international master programme**

Диплом магистра техники и технологии по направлению 280700 'Техносферная безопасность'

110. OFFSHORE FIELD DEVELOPMENT TECHNOLOGY

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **University of Stavanger
Gubkin Russian State University of Oil and Gas**

Europe: **Norway**

Russia: **Moscow**

Tuition language(s): **English**

Mobility

for Europeans: **(Norway only) mandatory 1 semester**

for Russians: **mandatory 1 semester**

Brief description of the programme: **The programme prepares experts in offshore oil and gas development (particularly in the European Arctic region). Programme graduates are able to use offshore oil and gas technology and implement appropriate economic solutions at all stages of offshore development. They are trained to resolve complex problems in exploration, drilling, extraction, transportation and processing of Arctic hydrocarbon resources while taking into account the specificity of the surface and subsea equipment.**

Admission Requirements: **Bachelor's degree, Application form, CV/ Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Notarized copy of BA diploma with apostil and notarized copy of diploma supplement, Notarized Russian translation of these documents, Copy of passport (valid for at least 18 months), Interview**

Application deadline:

for Europeans: **(Norway only) 1 April; for Russians: 1 April**

Tuition fees (per semester):

for Europeans: **(Norway only) none**

for Russians: **200 000 RUB**

Scholarship: **available**

Degrees awarded: **Master of Science in Offshore Field Development Technology**

Диплом магистра техники и технологии по направлению 'Нефтегазовое дело'

115. PSYCHO-PEDAGOGY OF PUPIL'S LEARNING

Area / Fields of study: **Social sciences, business and law / Social and behavioural sciences/ Psychology**

Partner Universities: **Sapienza University of Rome
Moscow State University of Psychology and Education**

Europe: **Italy**
Russia: **Moscow**

Tuition language(s): **Russian, Italian**

Mobility
for Europeans: **mandatory 1 month**
for Russians: **mandatory 1 month**

Brief description of the programme: **Programme graduates are able to design educational programs for students' personal development, plan interventions aimed at mitigating effects of adverse family or external social environment, and account for diverse needs in students' psychological development. Graduates are trained to collaborate with other professionals.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Language certificate(s), Interview**

Application deadline:
for Europeans: **25 July**
for Russians: **25 July**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master in Pedagogy and Educational sciences
Диплом магистра по направлению «Психолого-педагогическое образование»**

Website: **none**

Contact information:

116. PUBLIC ADMINISTRATION

Area / Fields of study: **Social sciences, business and law / Business and administration / Public administration**

Partner Universities: **University of Potsdam
Peoples' Friendship University of Russia**

Europe: **Germany**
Russia: **Moscow**

Tuition language(s): **German, Russian**

Mobility

for Europeans: **mandatory 2 semesters**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates demonstrate a fundamental knowledge of social sciences, and implement cross-cultural communication skills and techniques in order to enhance the efficiency of state and municipal administration.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Language certificate(s), Online application, Interview**

Application deadline:
for Europeans: **15 September**
for Russians: **30 June**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Arts**

магистр по направлению 'Политология'

117. PUBLISHING

Area / Fields of study: **Humanities and arts / Arts / Printing and publishing**

Partner Universities: **Oxford Brookes University
Moscow State University of Printing Arts**

Europe: **United Kingdom**
Russia: **Moscow**

Tuition language(s): **Russian**

Mobility
for Europeans: **not applicable**
for Russians: **not applicable**

Brief description of the programme: **The programme provides a broad understanding of the book publishing industry and media markets that enables graduates to lead process improvements in book and press publishing. Programme graduates are able to synthesise main social, economic and legal factors affecting publishing industry.**

Admission Requirements: **Bachelor's degree, Interview**

Application deadline:
for Europeans: **not applicable**
for Russians: **September**

Tuition fees (per semester):
for Europeans: **not applicable**
for Russians: **20 000 RUB**

Scholarship: **not available**

Degrees awarded: **Master of Arts in Publishing
диплом по специальности «Издательское дело и редактирование»**

118. QUANTITATIVE ECONOMICS

Area / Fields of study: **Social sciences, business and law / Social and behavioural science / Economics**

Partner Universities: **Université Paris-1 Panthéon-Sorbonne
Novosibirsk State University**

Europe: **France**
Russia: **Siberia**

Tuition language(s): **English**

Mobility
for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **The aim of the programme is to train highly qualified analysts and researchers. The graduates use advanced tools for theoretic and applied research, and could choose between the career in academia, business, or public policy.**

Admission Requirements: **Bachelor's degree, Interview**

Application deadline:
for Europeans: **March**
for Russians: **March**

Tuition fees (per semester):
for Europeans: **1 950 Euro**
for Russians: **18 582 RUB**

Scholarship: **available**

Degrees awarded: **Master**
диплом магистра по направлению 'Экономика'

Website: <http://www.univ-paris1.fr/international/pantheon-sorbonne-dans-le-monde/filieres/doubles-diplomes-et-diplomes-conjoints/doubles-diplomes-et-diplomes-conjoints-en-sciences-economiques-et-de-gestion/>

119. RESERVOIR GEOSCIENCE AND ENGINEERING

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **IFP School**

- 1. Tyumen State Oil and Gas University.**
- 2. Gubkin Russian State University of Oil and Gas**

Europe: **France**

Russia: **1. Urals. 2. Moscow**

Tuition language(s): **English**

Mobility

for Europeans: **optional 1 semester**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **This programme in the field of geology and reservoir engineering forms a fundamental understanding of reservoir engineering, technological design and modeling, and development of non-traditional hydrocarbons.**

Admission Requirements: **Masters' degree, Application form, CV/ Resume, Motivation letter, Language certificate(s), Interview**

Application deadline:
for Europeans: **31 March**
for Russians: **31 March**

Tuition fees (per semester):

for Europeans: **4 500 Euro**

for Russians: **4 500 Euro**

Scholarship: **available**

Degrees awarded: **Master of Science**

120. RUSSIAN CULTURE

Area / Fields of study: **Humanities and arts / Humanities / Foreign cultures**

Partner Universities: **Ruhr-Universität Bochum
Russian State University for the Humanities**

Europe: **Germany**
Russia: **Moscow**

Tuition language(s): **German, Russian**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **optional 1 semester**

Brief description of the programme: **The programme equips graduates with a broad understanding of emergence, development and functioning of the Russian culture in the European context. It allows graduates to pursue careers as researchers, teachers, cultural practitioners.**

Admission Requirements: **Certificate of secondary education, Bachelor's degree, Application form, Interview**

Application deadline:

for Europeans: **4 April and 10 October**
for Russians: **15 January and 15 July**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Arts**

121. SMART ENERGY SYSTEM

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Electricity**

Partner Universities: **Otto-von-Guericke University Magdeburg
Irkutsk State Technical University**

Europe: **Germany**
Russia: **Siberia**

Tuition language(s): **English**

Mobility

for Europeans: **mandatory 2 semesters**
for Russians: **mandatory 2 semesters**

Brief description of the programme: **Programme graduates are able to operate, test, and make repairs to electrical power infrastructure, apply methods and tools of automated electrical power system management (Smart Grid), and manage projects in electrical engineering.**

Admission Requirements: **Bachelor's degree**

Application deadline:
for Europeans: **not applicable**
for Russians: **1 September**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Master of Science in Electrical Engineering
Диплом магистра**

122. SOCIOLOGY

Area / Fields of study: **Social sciences, business and law / Social and behavioural studies / Sociology**

Partner Universities: **University of Manchester
The Institute 'The Moscow School of Social and Economic Sciences', Non-governmental educational establishment**

Europe: **United Kingdom**
Russia: **Moscow**

Tuition language(s): **Russian, English**

Mobility
for Europeans: **not applicable**
for Russians: **optional**

Brief description of the programme: **Programme graduates demonstrate a deep understanding of conceptual frameworks and methodological tools used in contemporary sociological theories. They are able to conduct basic theoretical research, and prepare and implement a full cycle study in sociological theory and epistemology of social sciences.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Recommendation letter(s), Interview**

Application deadline:
for Europeans: **10 September**
for Russians: **10 September**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **75 000 RUB**

Scholarship: **available**

Degrees awarded: **Master of Arts in Sociology
диплом магистра, диплом о профессиональной переподготовке**

124. T.I.M.E. DOUBLE DEGREE PROGRAM

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades**

Partner Universities: **École Supérieure d'Électricité, Supélec
Bauman Moscow State Technical University**

Europe: **France**
Russia: **Moscow**

Tuition language(s): **English, French**

Mobility

for Europeans: **optional 4 semesters**
for Russians: **optional 4 semesters**

Brief description of the programme: **Programme graduates demonstrate fundamental knowledge of various disciplines, and develop communication skills and high managerial potential. They are fluent in 2 foreign languages and have research experience in European companies and scientific laboratories.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:
for Europeans: **April**
for Russians: **June**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Diplôme d'ingénieur.**

125. TECHNOMATHEMATICS AND TECHNICAL PHYSICS

Area / Fields of study: Science / Mathematics and Statistics

Partner Universities: Lappeenranta University of Technology

1. Southern Federal University.

2. Saint-Petersburg Electrotechnical University 'LETI'.

3. National Research University 'Moscow Power Engineering Institute'

4. St. Petersburg State Polytechnical University

Europe: Finland

Russia: 1. South. 2, 4. North-West. 3. Moscow

Tuition language(s): English

Mobility

for Europeans: not applicable

for Russians: mandatory 2 semesters

Brief description of the programme: Programme graduates function as researchers and practitioners in fields that require the use of mathematical modelling and computational experiments, a foreign language, and knowledge of socio-economic disciplines.

Admission Requirements: Bachelor's degree, Application form, Language certificate(s), Interview

Application deadline:

for Europeans: 12 March

for Russians: 12 March

Tuition fees (per semester):

for Europeans: none

for Russians: none

Scholarship: available

Degrees awarded: Master of Science (Tech.)

Диплом магистра техники и технологии

126. THEORY AND PRACTISE OF THE ORGANISATION-TECHNOLOGICAL AND ECONOMICAL SOLUTIONS

Area / Fields of study: **Engineering, manufacturing and construction / Architecture and building / Civil engineering**

Partner Universities: **Beuth Hochschule fuer Technik Berlin
Rostov State University of Civil Engineering**

Europe: **Germany**
Russia: **South**

Tuition language(s): **German, Russian**

Mobility

for Europeans: **mandatory 1 semester**
for Russians: **mandatory 1 semester**

Brief description of the programme: **Programme graduates are able to develop methods and software tools for performing calculations in construction design, produce specifications, drafts, and support documentation, develop and improve quality control methods in construction, organise quality management measures for technological processes, and use Russian and German.**

Admission Requirements: **Bachelor's degree, language certificate**

Application deadline:
for Europeans: **not applicable**
for Russians: **no deadline**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **not available**

Degrees awarded: **Master of Engineering**

127. TOURISM MANAGEMENT

Area / Fields of study: **Social sciences, business and law / Business and administration / Management**

Partner Universities: **Université Paris-Est Marne-la-Vallée
Voronezh State University**

Europe: **France**
Russia: **Centre**

Tuition language(s): **French**

Mobility

for Europeans: **optional 1 semester**
for Russians: **optional 2 semesters**

Brief description of the programme: **Programme graduates are able to manage, implement, and commercialise projects in the sphere of business, event, congress and elite tourism, and can communicate in 2 foreign languages.**

Admission Requirements: **Bachelor's degree, Other degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Interview**

Application deadline:
for Europeans: **30 November and 30 June**
for Russians: **30 November**

Tuition fees (per semester):
for Europeans: **300 Euro**
for Russians: **no information**

Scholarship: **not available**

131. WOOD SCIENCE AND TECHNOLOGY

Area / Fields of study: **Engineering, manufacturing and construction / Manufacturing and processing / Wood**

Partner Universities: **Groupe École Supérieure du Bois (ESB)
Ural State Forestry Engineering university**

Europe: **France**
Russia: **Urals**

Tuition language(s): **English, French, Russian**

Mobility

for Europeans: **optional 4 semesters**
for Russians: **mandatory 4 semesters**

Brief description of the programme: **The programme equips graduates with a thorough understanding of technological processes involved in wood processing industry. Programme graduates are prepared to solve technological and organisational problems in modern wood processing enterprises.**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s), Interview**

Application deadline:
for Europeans: **May**
for Russians: **May**

Tuition fees (per semester):
for Europeans: **none**
for Russians: **none**

Scholarship: **available**

Degrees awarded: **Engineering degree from ESB

132. WOOD SCIENCE AND TECHNOLOGY

Level: **Engineer / Specialist**

Area / Fields of study: **Engineering, manufacturing and construction / Manufacturing and processing / Wood**

Partner Universities: **Groupe École Supérieure du Bois Chelyabinsk State Agro-engineering Academy**

Europe: **France**

Russia: **Urals**

Tuition language(s): **English, French, Russian**

Mobility

for Europeans: **optional 4 semesters**

for Russians: **mandatory 4 semesters**

Brief description of the programme: **Programme graduates are equally prepared to work in the agricultural as well as the forestry industry in any European or CIS country and Russia, and have a command of 3 languages (Russian, French and English).**

Admission Requirements: **Bachelor's degree, Application form, CV/Resume, Motivation letter, Recommendation letter(s), Language certificate(s)**

Application deadline:

for Europeans: **April**

for Russians: **March**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

JOINT PROGRAMME: HOW WAS IT? STUDENTS' EXPERIENCE

The programme takes care of most organisational issues

Stephan: "All the arrangements were done by the international department, which did all the necessary paper work, so the students did not need to worry about it."

Catharina: "The local organisers were highly helpful. The host HEI issued an invitation letter, which was given to the visa application centre, and the visas were obtained quickly."

Alexey: "The international department was highly helpful in all preparatory work for the programme."

Roman: "The host university assisted in all practical arrangements, e.g. getting a placement in a dormitory. There was an introduction into the programme upon arrival, dedicated to administrative and everyday issues to make the life of newcomers easier."

The teachers are ready to meet student needs

Dmitri: "Small groups of students and frequent trips of teachers allowed individualised time-tables, tailored to students' availability."

Ksenia: "The mobility period lasted three months due to limited fellowship allowance. The teachers were ready to cooperate, permitted passing the exams sooner, etc."

Organisation of the studies differ

Roman: "Individual study plans allowed everybody to attend only the courses s/he found interesting and useful. However, it meant an inconvenient timetable too: the classes during the day could be sporadically spread from early morning till late evening. There were no student groups — those profiting in a specific area, typical for Russian student life."

Alina: "Special web-portal provides individualised information on all the selected courses, time-table, location

of each class. All the changes in the timetable are announced through this system. The teachers use it to post assignments for each class.”

Teaching style differs

Yaroslav: “In Russia, the student is given an assignment, and is expected to do it in a certain way, while in Europe it was important to agree why something should be done first, and only then start looking for a technical solution. It takes more time, but it could result in a better designed product and also in more stress.”

Olga: “In Europe, students are expected to work independently, and self-studies dominate, guided by the curriculum. Everybody plans one’s own time and effort. In Russia, the interaction with the teachers is more individualised: the groups are smaller, the feedback is more personalised.”

Julia: “Russian teachers tend to get deeper into the subjects they cover. European teachers tend to highlight some issues, but do not get into details.”

Partner HEIs focus on different skills

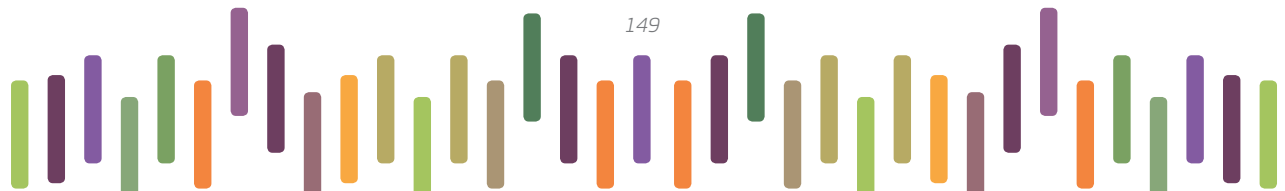

Yaroslav: “Small groups and individualised feedback dominate in Russia, while in Europe the group could be more than 200 students. However, it teaches different competences, compared to individualised work pattern in Russia: how to organise the joint work, how to divide it to get the maximal score for the group. The skills for multicultural communication are thus developed too.”

Knowledge application is important in Europe

Vladimir: “Russian HEIs emphasise theoretical base and force the students to master the deep understanding of the material. European teachers focus on practical application. In Russia, a student often does not know why something is needed. In Europe, the teachers always explain the reasons for mastering particular topics.”

Yaroslav: “About half of teachers in <...> have the experience outside the academic world. They provide a lot of practical advice and invite the professionals to share their experience with the students.”

PH.D PROGRAMMES

133. CO-TUTELAGE OF DOCTORAL THESIS

Area / Fields of study: **Engineering, manufacturing and construction / Engineering and engineering trades / Electricity**

Partner Universities: **University of Padua, Novosibirsk State Technical University**

Europe: **Italy**
Russia: **Siberia**

Tuition language(s): **English, Russian, Italian**

Mobility
for Europeans: **optional 18 months**
for Russians: **optional 18 months**

Brief description of the programme: **Programme graduates are able to apply the theory of electro-thermodynamics to review, design and optimize electrico-technical installations. They use computer and mathematical modelling methods and are able to analyse technical and economic indicators of the equipment.**

Admission Requirements: **Masters' degree, Interview**

Application deadline:
for Europeans: **not applicable**
for Russians: **not applicable**

Tuition fees (per semester):

for Europeans: **none**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **Doctor of Philosophy (Ph.D) in Industrial Engineering**

Диплом кандидата технических наук по специальности 05.09.10 “Электротехнология”

Website: **none**

134. JOINT PH.D PROGRAMME IN APPLIED PHYSICS

Area / Fields of study: **Science / Physical sciences / Physics**

Partner Universities: **University of Palermo
Lobachevsky State University of Nizhni Novgorod (NNSU)**

Europe: **Italy**

Russia: **Volga**

Tuition language(s): **English**

Mobility

for Europeans: **mandatory 1 semester**

for Russians: **mandatory 2 semesters**

Brief description of the programme: **This joint doctoral programme provides training for Ph.D students in Applied Physics at University of Palermo and at the Radiophysics department of NNSU. The programme includes the following courses: "Computational Physics," "Solid State Detectors," "Foundations of Random Process Theory and Image Processing," "Foundations of Bioinformatics," and "Functional methods of stochastic system analysis."**

Admission Requirements: **Masters' degree or 5-year Bachelor's degree, Interview**

Application deadline:

for Europeans: **August**

for Russians: **August**

Tuition fees (per semester):

for Europeans: **130 Euro**

for Russians: **none**

Scholarship: **available**

Degrees awarded: **International Ph.D in Applied Physics**

диплом кандидата наук

JOINT PROGRAMME: SOME TIPS FROM THE STUDENTS

Learn to be flexible — it will be useful in professional life

The skill of doing several things at once, which Stephan mastered during his Master studies, is highly appreciated by his employers and is a must in the modern economy.

Discover the new horizons

There are many stereotypes about Russia in Europe. Davide's experience was extraordinary — he fell in love with the country and its people, and believes he has become a bit Russian himself. Davide recommends this experience to everybody to see possible differences and change one's perception of the world.

Keep your eyes open for the new opportunities

During his year at the Russian HEI, Stephan took the mandatory 3-month internship in a European company.

Its director recommended Stephan to the Moscow office of one of the leading attorney offices, where Stephan is working now.

Studies pay back

European degree might be considered an equivalent to the work experience. In Russia, many senior full-time students start working to gain work experience, expected by the employers. The European degree allowed Roman getting an attractive position without any prior work experience. The studies in Europe were treated by the employer as a good argument to offer a job.

Different perspectives matter

Elena: “My CEO appreciates the employees who have more than one higher education, and my knowledge of foreign languages meant a lot as well.”

Need to plan your application beforehand

Many students refer to the need to plan the application well beforehand, as many documents are required: language test, apostilled copies for all the degrees, etc.

Language is important, but is not a barrier

Alexey: “Language is not so challenging in Mathematics — it is much more important to know Math than English to follow the lectures. In Finland, English is not a native language for the majority, and everybody makes mistakes, both the Russians and the Finns, but it is important that we understand each other.”

Yaroslav: “Language was not an issue in the studies, as IT operates with internationally known system of codes. Both English and Russian were used for studies.”

Davide decided to start learning Russian a few months before his first trip to Russia and now speaks fluently. He noticed that language was important for everyday communication, and English was not sufficient to enjoy the stay in Russia to the full extent.

Charis: “The whole programme is provided in English, but nobody speaks English outside the class.” However, there were no problems with communication during the 6 months Charis spent in Russia. “People are very friendly and extremely helpful. Latin words help the nations to find the common ground, people use the gestures.” Charis felt comfortable and made many friends.

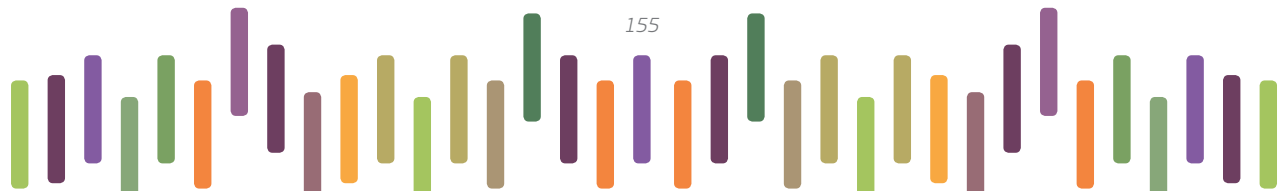

Study for life

Sergey learned to be independent, to defend his views, as in the foreign country most of everyday issues were challenging due to their novelty and difference from the established home routine. The programme taught Sergey not to give up and not to be afraid of difficulties: “facing them is a matter of training and readiness.” He now believes that everybody is capable to live their dreams; one has to overcome the initial fear and move forward.

Sergey recommends the international experience to everybody as a school for personal development.

ENGLISH-RUSSIAN PROGRAMME NAMES FINDER

Number and Programme Name in the English version		Number and Programme Name in the Russian version	
1	Accounting with Financial Management	20	Учет и финансовый менеджмент
2	Bachelor in Applied Languages specialising in Inter-cultural Management	13	Прикладные иностранные языки
3	Bachelor in International Hotel Management	8	Международный гостиничный менеджмент
4	Baltic Management Studies	1	Baltic Management Studies
5	Civil and Construction Engineering	19	Строительство
6	Double Degree Programme in Management / Business Administration	12	Менеджмент/Экономика и организация предприятия
7	Double degree Bachelor Programme in Management	10	Менеджмент
8	Double Degree BSc Programme between Higher School of Economics and London School of Economics and Political Science	16	Программа двух дипломов по экономике НИУ ВШЭ и Лондонской школы экономики
9	Double Degree Programme in International Business — Eastern Europe	7	Международный бизнес — Восточная Европа
10	Economics	2	Economics
11	Economics and Management	23	Экономика и управление
12	Financial and Investment Management	22	Финансы и инвестиционный менеджмент
13	Foreign Languages	21	Филологическое образование

14	Industrial Engineering	3	Двойной российско-немецкий диплом бакалавра
15	Information Systems and Technologies	5	Информационные системы и технологии
16	Information Technology and Civil Engineering	4	Информационно-строительный инжиниринг
17	Integrated Degree Programme for Education	18	Совместная образовательная программа по педагогике с двойным дипломом
18	International Business	6	Международный бизнес
19	International Cooperation	15	Программа двойных дипломов в области прикладной информатики
20	Programme of Double Diploma in economic sciences between Panthéon-Assas University and Altai State University	17	Программа двойного диплома в области экономических наук между университетом Пантеон-Ассас и Алтайским государственным университетом
21	Russian-Dutch Interfaculty	9	Международный маркетинг
22	Tourism and Hotel Management	132	Туризм и гостиничный бизнес
23	Travel and Tourism Management	11	Менеджмент: Менеджмент в сфере международного туризма
24	Double Degree	14	Программа бакалавриата «Экономика» Российско-Итальянского Университета
25	Business in Emerging Markets	25	Бизнес в развивающихся рынках
26	Business Informatics	26	Бизнес-информатика
27	CAD (Computer-Aided Design)	130	Системы автоматизированного проектирования (САПР)
28	Chemical and Process Engineering	120	Химические технологии
29	Collaborative Power and Electrical Engineering Graduate Programme	28	Возобновляемая энергетика
30	Computer Science (Informatics)	43	Информатика и вычислительная техника
31	Counselling	89	Практическая психология / Психологическое консультирование

32	Cultural Management	72	Менеджмент в сфере культуры
33	Double Degree	124	Экономика нефтегазовой отрасли и проблемы энергетической политики
34	Double Degree Programme	97	Программа двух дипломов в области телекоммуникаций
35	Double Degree Programme	42	Информатика и вычислительная техника
36	Double Degree Programme in Applied Mechanics	91	Прикладная механика
37	Double Degree Programme	96	Программа двойных дипломов
38	Double Degree TIME	36	Двойной диплом TIME
39	Double Diploma	119	Хемоинформатика и молекулярное моделирование
40	East European Studies: History-Media	29	Восточноевропейские исследования
41	Economics and Business Regulation	123	Экономика и правовое регулирование бизнеса
42	Economics for Tourism	74	Менеджмент туристских дестинаций — Экономика туризма
43	Economy of Enterprises, Quality and Innovation	125	Экономика предприятия, качество и инновации
44	Electric Power Generation and Transportation	98	Производство и транспортировка электрической энергии
45	Applied Mathematics for Energy Strategies	90	Прикладная математика и энергетические стратегии
46	Energy Systems	108	Техника и физика высоких напряжений
47	Energy Technology	49	Комплексное использование возобновляемых источников энергии
48	Engineering Science	115	Физика высоких технологий в машиностроении
49	Environmental Management	53	Магистерская программа присуждения двойного диплома 'Экология и природопользование', профиль 'Природопользование'

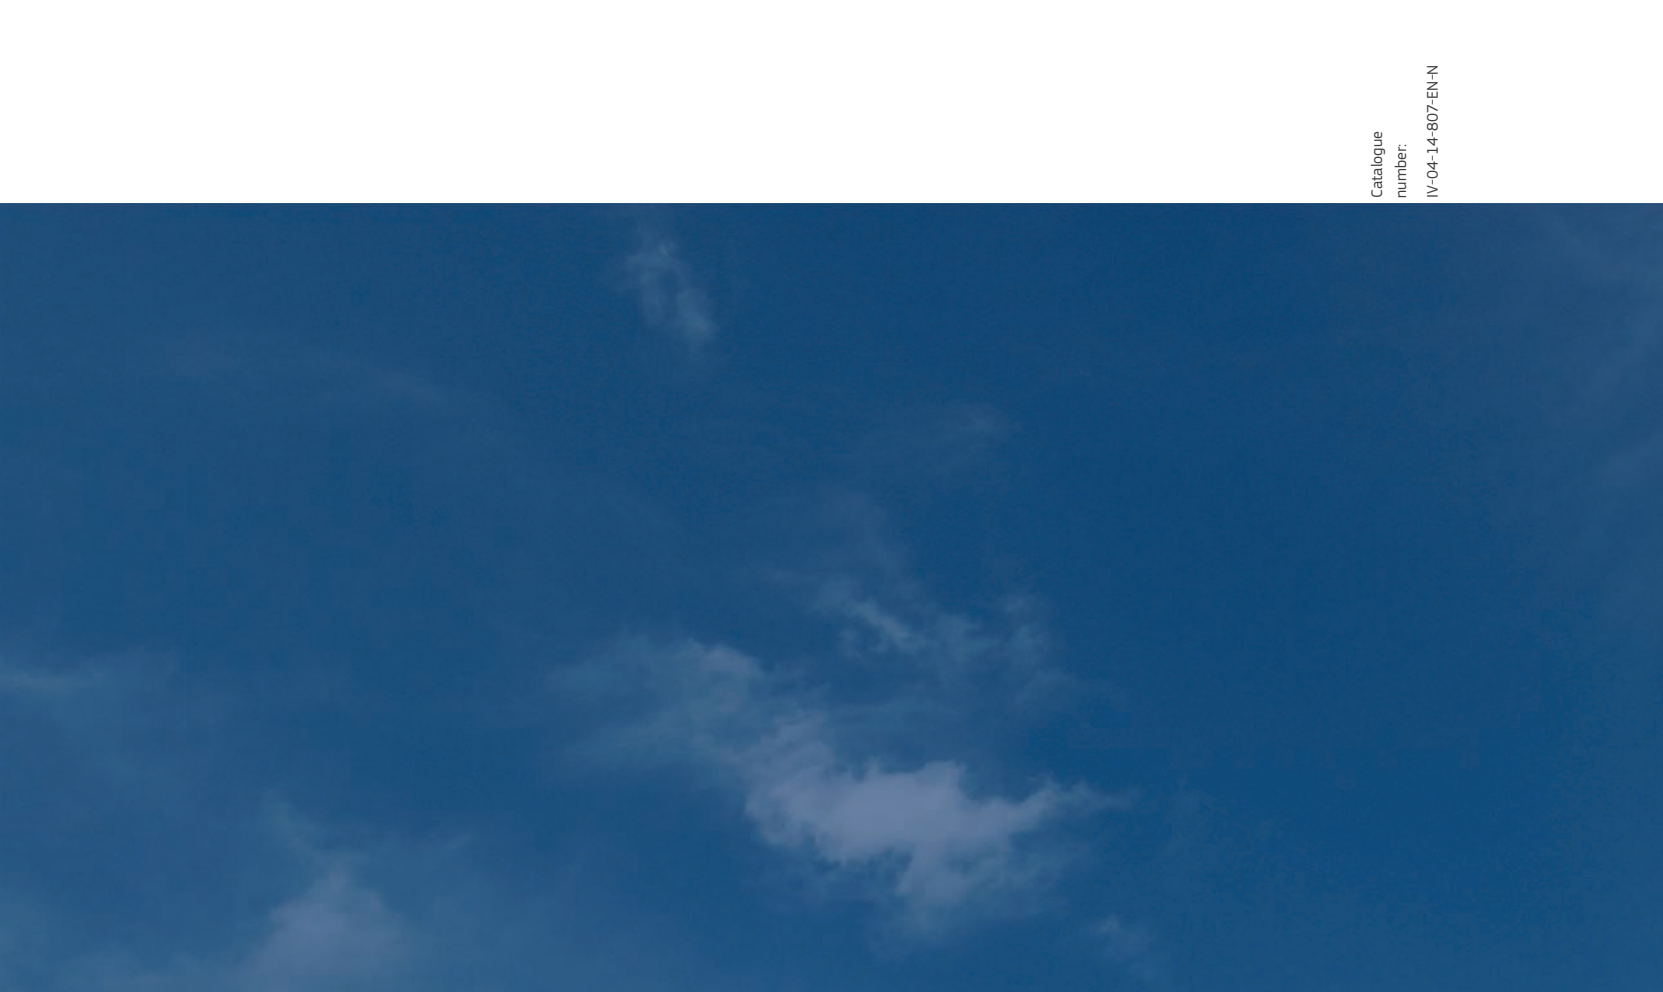

50	ERASMUS Mundus Masters Course “Mechatronic Engineering”	76	Мехатроника
51	European Master in International Management (EMIM)	38	Европейский магистр международного менеджмента
52	European Union Studies	45	Исследования Европейского Союза
53	Eurus Agromarket	24	Аграрная торговля и маркетинг
54	Fenno-Russian Master’s Degree Program in Information Technology	44	Информационные технологии
55	Financial Economics	117	Финансовая экономика
56	Food and Agribusiness	55	Магистр пищевых технологий и агробизнеса
57	Gas Supply and Ventilation	107	Теплогазоснабжение и вентиляция
58	Geological and Geophysical Problems of Oil and Gas Field Development	31	Геолого-геофизические проблемы освоения месторождений нефти и газа
59	Geopolitics of Post-Soviet space	86	Постсоветские исследования, направление ‘История’
60	German Engineering Faculty MEI — TU Ilmenau	32	Германский инженерный факультет МЭИ — ТУ Ильменау (Информатика, Вычислительная техника, Электротехника)
61	German-Russian Master’s in International Relations	77	Мировая политика
62	Global Communication and International Journalism	33	Глобальная коммуникация и международная журналистика
63	Global Management of Innovation and Technology	34	Глобальный инновационный и технологический менеджмент
64	Historical Comparative Studies and Transitology (Russia-Poland)	46	Историческая компаративистика и транзитология (Россия — Польша)
65	Integrated Degree Programme for Education	102	Совместная образовательная программа по педагогике с двойным дипломом

66	Intelligent Systems	40	Интеллектуальные системы (международная образовательная программа в рамках проекта BRIDGE)
67	Intercultural Communication: Russian and Italian Language, History and Literature	58	Международная магистерская программа 'Межкультурная коммуникация: язык, история и литература России и Италии'
68	Internal Audit & Risk Management	118	Финансовый менеджмент, учет и управление рисками
69	International Affairs	61	Международные отношения
70	International Agribusiness	65	Международный агробизнес
71	International and European Law/ Magisterstudium zum Internationalen und Europäischen Recht	60	Международное и европейское право
72	International and European Studies	63	Международные отношения (Мировая политика)
73	International Business Development	99	Развитие международного бизнеса
74	International Business in the Oil and Gas Sector and Development of Arctic Resources	66	Международный бизнес в нефтегазовой отрасли и освоение ресурсов Арктики
75	International Energy Economics and Business Administration	59	Международная энергетическая экономика и деловое администрирование
76	International Literary Studies: German-Russian Transfers	51	Литература народов зарубежных стран: русско-немецкий культурный трансфер
77	International Management	93	Программа 'Двойной диплом' менеджмент
78	International Management	103	Совместная программа Двойных дипломов магистратуры 'Управление международными проектами'
79	International Management — MIEХ	68	Международный менеджмент
80	International Marketing Management	67	Международный маркетинг менеджмент
81	International Masters in Economy, State and Society	64	Международные отношения в Евразии

82	International Mechatronic	39	Интеллектуальные системы (медународная образовательная программа на иностранном языке)
83	International Policy	78	Мировая политика: концептуальные основы и межкультурное взаимодействие
84	International Relations	37	Европейская интеграция и глобальное развитие (Политические проблемы европейской интеграции)
85	International Social Management	70	Международный социальный менеджмент
86	Joint master Programme in Earth Sciences	101	Совместная образовательная программа магистратуры по наукам о земле
87	Languages and Civilization — 'Russia — Europe'	126	Языки и культуры — 'Россия — Европа'
88	Legal Studies (LL.M.)	87	Правоведение
89	Logistics	69	Международный менеджмент логистических систем
90	Management: 1. International Human Resource Management; 2. International Marketing	75	Менеджмент. Специализации: 1. Управление человеческими ресурсами; 2. Международный маркетинг
91	Master in Applied Languages specialising in Inter-cultural Management	92	Прикладные иностранные языки
92	Master in Communication and Business	112	Управление бизнес-коммуникациями
93	Master in Economics	57	Международная торговля, финансы и статистика
94	Master in Environment	121	Экологические проблемы окружающей среды
95	Master in Management	56	Маркетинг. Предпринимательство. Инновации.
96	Master in Management	105	Стратегическое и корпоративное управление
97	Master of Digital Technologies applied to History	47	История и новые технологии
98	Master of Economics and Management Science	122	Экономика и менеджмент
99	Master of Engineering	52	Магистерская программа в области информационно-коммуникационных технологий

100	Master of Local Administration and Transnational Cooperation	88	Правовые основы деятельности органов государственной власти
101	Master of Public Administration	35	Государственное и муниципальное управление
102	Master of Science in Management	94	Программа двойного диплома магистра
103	Master Program for Polar and Marine Sciences PO-MOR	85	Полярные и морские исследования (ПОМОП)
104	Master Program in Optics and Nanosciences	80	Оптика
105	Master's Degree in Cultural Heritage: Research and Management	50	Культурное наследие: исследование и управление
106	Master's Degree in Cultural Management and Intercultural Communication	71	Менеджмент в культуре и межкультурная коммуникация
107	Master's Degree Programme in European and Russian Studies	62	Международные отношения
108	Mathematics, Computer Science, Mechanics	54	Магистерская программа Российско-Итальянского университета 'Математика, информатика, механика'
109	Network for Master Training in Technologies of Water Resources Management	27	Водоотведение и очистка сточных вод
110	Offshore Field Development Technology	109	Технологии освоения морских нефтегазовых месторождений
111	Philology	82	Педагогическое образование, магистерская программа Лингвокультурология
112	Philosophy	116	Философия и диалог культур
113	Processing Technologies of Materials	95	Программа двойного дипломирования
114	Production Systems Management	113	Управление в производственных системах
115	Psycho-Pedagogy of Pupil's Learning	81	Педагогика и психология воспитания учащихся

116	Public Administration	84	Политические науки — публичное администрирование
117	Publishing	128	Инновационные технологии в издательском деле
118	Quantitative Economics	48	Количественная экономика
119	Reservoir Geoscience and Engineering	30	Геология и геофизика нефтегазоносных пластов
120	Russian Culture	100	Русская культура
121	Smart Energy System	41	Интеллектуальные системы энергоснабжения
122	Sociology	104	Социология
123	Sustainable Energy	114	Устойчивое развитие и стратегическое управление в энергетике
124	T.I.M.E. Double Degree Programme	127	Двойной диплом
125	Technomathematics and Technical Physics	111	Техноматематика и техническая физика
126	Theory and Practise of the Organisation-Technological and Economical Solutions	106	Теория и практика организационно-технологических и экономических решений
127	Tourism Management	73	Менеджмент туризма
128	Transition Management / General and Strategic Management	79	Общий и стратегический менеджмент
129	Translation	83	Перевод (магистратура)
130	Translation and Translation Studies	129	Перевод и переводоведение
131	Wood Science and Technology	110	Технология переработки древесины
132	Wood Science and Technology	131	Совместная подготовка специалистов для лесотехнической и аграрной отрасли
133	Co-Tutelage of Doctoral Thesis	134	Промышленная инженерия. Электротехнология
134	Joint Ph.D Programme in Applied Physics	133	Программа совместной аспирантуры
