With 5+ years of experience in the realm of UX/UI design, and information visualization - I have worked on design/UX teams in a variety of different organizations including Deloitte Canada, Arteria AI (spun off-of Deloitte).

As an extension of my post-graduate thesis at George Brown College, I worked with a non-profit - Centre of Addiction and Mental Health (CAMH) and IT players like Cisco to sharpen my skills as both - a consultant as well as an in-house designer.

## WORK EXPERIENCE

### Sr. UX Designer, Arteria AI

Oct 2020 - Present

Arteria AI, is a spin-off from Deloitte's award winning Contract Lifecycle Management (CLM) software offering, formerly known as dTrax.

As a senior designer at Arteria, I worked on complex enterprise solutions by conducting various client workshops, requirement gathering, mapping user pain-points and translating those to holistic solutions, to streamline digital contracting for legal departments in top-tier banks.

### UX Designer, Deloitte

Nov 2018 - Oct 2020

At Deloitte, my primary focus was dTrax (Now Arteria AI). I was involved with several other projects including AI enabled cyber-security software for enterprises, creating an internal website for Deloitte Greenhouse, as well as helping with the creation of COVID-19 Economy Recovery Dashboards.

### UI/UX Designer, Peerio Inc.

Mar 2017 - Nov 2018

Peerio (now acquired by WorkJam) is an encrypted chat and file share offering for teams. As a full time designer, I was responsible for improving UX flows through out the app, conducting user research and using the findings to create intuitive interfaces for user testing

### UX Researcher, CAMH

Nov 2015 - Apr 2017

Conducted extensive user research for Center of Addiction and Mental Health, to lay the foundation of an innovative mental health app.
