WHAT IS THE CHARM CITY FRINGE?

WHAT IS THE CHARM CITY FRINGE?

The Charm City Fringe Festival is a 10-day explosion of theater events that take place all across the great city of Baltimore. Over 101 acts will grace the stage of nine venues in Baltimore neighborhoods over the 10 days of adventure, performance, parties, and merriment.

Fringe festivals promote tourism, provide opportunities for up-and-coming artists to hone their craft, and play an essential role in developing and sustaining a thriving arts industry and engaging and revitalizing communities.

Charm City Fringe Festival is part of a world-wide network of theater festivals featuring experienced and emerging performers all around the world. Fringe Festivals date back to Edinburgh, Scotland in 1947, where a number of companies performed on the outskirts, or the fringe, of the Edinburgh International Festival. Since then, the Edinburgh Festival Fringe has become the largest arts festival in the world. Other Fringe festivals have sprouted all over the world and have become platforms for artists everywhere to showcase their work.

This is the seventh year Baltimore has hosted the Charm City Fringe Festival and we are pleased to offer an incredible array of talent from around North America. Performers at Charm City Fringe are serious artists destined for fame and glory in the performing arts. Their shows range from musical theatre and improvisation to puppetry and drama.
