Graduating to Mdw Nfr:
Imperatives for
African-Centered
Educational Institutions

ASCAC

Southern Regional Conference

The ancestors' assertion that mdw nfr (good speech) is the ultimate indicator of an optimally educated student demands that our educational institutions have both the processes and the longevity necessary to develop such a student. The optimal educational institution must operate with deliberate excellence in curriculum development, implementation and evaluation; pedagogy; educator training; school philosophy, character building, parental involvement; and fiscal sustainability. While many African-Centered educational institutions have excelled in one or more of these areas, most have been challenged with comprehensively implementing all of these requisite components of an effective and sustainable institution. Therefore, there is a need to share and examine approaches that have worked well for individual institutions in order to fortify all of our institutions with the ability to excel in each of these areas. The 2013 ASCAC Southern Region Conference, through dynamic speakers and interactive workshops, will be a forum for this essential conversation.
