

2017 Egg CSA Sign-up Form

STONEHAUS FARM

Our brown and green egg laying Hens enjoy organic feed, grass in season, organic hay through the winter and spent grain from One Barrel, a local craft brewer using barley, wheat and rye. Our hardy Hens can spend sunny winter days outside. Raising animals using small farming practices means healthy, happy animals, healthy people and sustainable farm management to support a healthy environment.

This year we are offering flexible plans so we can take new customers until we sell out.
