

DESK PADS

Top 10 Dos and Don'ts

1. Please **DO** note that the pads are only available as pictured in the catalog. We can of course change monograms and names, but the rest of the format cannot be edited.
2. Please **DO** note that each pad is available in the three colorways shown.
3. Please **DO** be aware that due to the style of printer used for desk pads, the colors will print 'as is' seen on the pad sample you received. This color varies slightly from the catalog and from pad to pad. We've spent a great deal of time making sure the colors within a colorway are not only beautiful, but complement each other well, and we're confident your customer will love the finished product. That said, if you're concerned about how a color will print or want to know the CMYK value of a color, please don't hesitate to give us a call.
4. Please **DO** feel free to order a pad in specific colors for a fee of \$75 (wholesale) per pad. We will need CMYK colors to match if your customer would like to have the pad printed this way.
5. Please **DO** be aware the desk pad is only available in one size - 12"x18". However we do offer the choice between 52 pages or 26 pages so that the pad can be used for either 6 months or a full year.
6. Please **DO** note that the pad will be glued on the 12" left side. Upon request we can glue the pad on the 12" right side instead. We cannot glue the pad on the 18" side.
7. Please **DON'T** associate the colors these pads are printed in with the flat print ink colors found in our Design Deck. Due to their size, these pads are printed on a different printer than our other Personalized Notepads making the colors unique to this product.
8. Please **DON'T** order pads with edge painting, foil printing, or letterpressing. We agree that a custom foil stamped pad sounds fabulous.... but unfortunately isn't possible with this paper.
9. Please **DON'T** order a pad with a bleed (i.e. a design going off of the edge). We pre-cut our pad paper, which is why all the designs are shown with a blank border.
10. Please **DON'T** ever hesitate to call us with questions! It's what we're here for! Our phone number is 866.740.4222.
