"There are, however, some classifications which the courts will scrutinize more carefully, and in most cases will be found to violate the constitution. An example of such a classification is one in which the government treats individuals differently because of their gender. One such situation involve the transfer of female prisoners out of state but the incarceration of male prisoners in the state."

Classifications based on sex are "inherently suspect."

ND Child Support Financially Incentivizes One Parent Being Minimized

HB 1392

James Fleming

To: Koppelman, Kim A.;

Good morning Chairman Koppelman.

Regarding the shared parenting bill, I didn't approach the podium because after 3 hours of testimony the committee was well behind your desired schedule for the day and probably pretty tired of the topic.

If the committee wanted to discuss the interplay of equal residential responsibility and child support, I would be available today and could make arrangements for a substitute to provide that information tomorrow or Wednesday this week.

Had I addressed the committee on the bill in a neutral capacity, I would have volunteered the statistics regarding shared parenting today: as of January 1, 2017, of the 26,000 cases where there is a current monthly child support obligation, 1.658 of those are equal residential responsibility cases. Although that represents only 6.3% of the total, there were only 400 in 2011 when similar legislation was last considered

Also, regarding the numerous legislative questions about the word "exactly" 50-50 as applied to child support (page 2, line 4), the drafters were relying on a very old version of the guidelines. In summer 2011 (ironically, under your chairmanship), the administrative rules committee approved amendments to the guidelines which deliberately removed the word "exactly" because of some of the same issues identified by your committee members last week.

Attached please find an excerpt from the administrative rules committee document identifying the changes.

Again, if Child Support can be of assistance to the committee, please feel free to contact me.

Tim

James C. Fleming Director Child Support Program North Dakota Department of Human Services PO Box 7190, Bismarck, ND 58507-7190

"Of North Dakotans surveyed by the U.S. Census Bureau in March 2014, 92 percent of those collecting child support were women. Among women aged 30-40, approximately 34 percent collect child support. (Compare to a national average of 17 percent.)"

Micro Validation of the Data Left Questions

- Eight Cases Were Chosen at Random from Burleigh County
- Case Files Were Researched to Confirm the Accuracy of the Reported Custody Determination
- Three of the Eight Investigated Cases were Found to Not be a Joint Physical Custody Arrangement
- One Decision Was Recorded as a Court Decision but was Actually a Stipulation
- Available Resources Prohibited a More In Depth Validation of the Data
- Micro Validation:
 - Suggests Need for Audit / Updated Procedures to Ensure Accuracy
 - Suggests the Number of Cases Reported as Joint May Be Overstated

Lawyers Claim Family Lawyers Don't Oppose Shared Parenting

Stated Publicly in an Op-Ed in the Grand Forks Herald

"First, there is not "strident opposition" to shared parenting by family law attorneys." Apr 16, 2017 (Tasha Gahner, Shannon Parvey, Jackie Stebbins, Jason McLean)

"I know Kelly [Senator Armstrong] likes the "idea" and "concept" of starting with joint, but he absolutely understands that it has to be workable. While we may disagree with him about "starting at joint" – maybe even informally and surely with a presumption, it's nice for us all to know where he's coming from."

SBAND to Public "Shared Residential Responsibility" Increasing

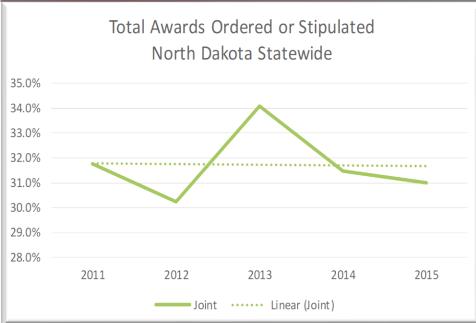

"And in recent years, "shared residential responsibility" has become more common, often by agreement as opposed to a requirement." Jason McLean; Grand Forks Herald – September 21, 2014

Gender Bias Rhetoric vs Actual Results

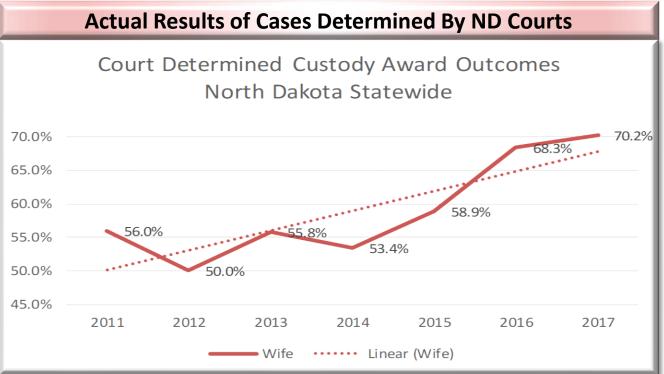

"Our law is gender-neutral. There is not a presumption that allows the award of a child to the mother over the father. Each parent comes in on equal footing."

Jason McLean, Esq. - Say Anything Blog; Aug 26, 2014

SBAND's Rhetoric vs Results: What the Public is Told

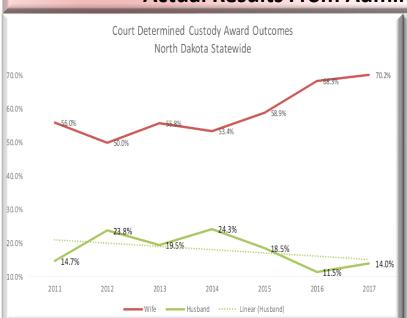

"the initiative's backers want the public to believe we have a corrupt system. They consistently cite flawed and unverified claims about a bias in the system against fathers." Jason McLean, Esq.

SBAND: Spending \$70,000 to be In Court Less & Make Less Money

"I hope he's telling the truth, but that's a hard one for me to say, Yeah, OK, I'll buy that." (Chris Berg)

Timing & Comments on SBAND's Misuse of Funds

1 Pre-Election (Oct 15, 2014)

"... lawyers say they're not doing anything wrong. Weiler points to two U.S. Supreme Court decisions as justification for the legality of the spending against Measure 6."

(Tony Weiler, Executive Director - State Bar Association of North Dakota)

2 Post Election: Goldwater Law Suit Against SBAND (Feb 4, 2015)

But in truth, my guess also is that everything he wrote to me at the time was just a smokescreen. I think he was playing for time. After all, at the time of our correspondence, the election was only a matter of four weeks away. The SBAND had already committed some \$70,000 to its opposition to the shared parenting initiative and Weiler wasn't about to renege on that commitment. My guess is he knew he was going to get sued and didn't care. The SBAND's insurance carrier will pay his legal bills, so Weiler has nothing to fear except being made a fool of and my final guess is that that's less important to him than was defeating shared parenting.

3 Announcement of Settlement of Part of Law Suit (Summer 2015)

"SBAND was sued by a member for allegedly misusing member dues. We worked closely with SBAND staff and our lead counsel, Randy Bakke, toward an early settlement of the case as very little facts were in dispute."

(Joseph Wetch, President – State Bar Association of North Dakota)

Conclusions & Recommendations

Conclusions

- North Dakota counties are quite uniform over race, family structure, income and education, yet, significant variances in custody determinations exist between counties, judicial districts and Judges
- It's highly unlikely similar cases will generate similar results statewide
- Shared Parenting determinations ranged from:
 - 15.6% to 50% for all cases (by judges hearing 20 or more cases)
 - 18.4% to 54.5% for stipulated cases (by judges hearing 20 or more cases which were stipulated)
 - 0% to 33% for court determined cases (by judges hearing 10 or more court determined cases)
- Representatives of the State Bar Association of North Dakota have not been forthright with North Dakota citizens regarding child custody
- There is not a uniform practice of justice in North Dakota Family Law

SP

Recommendations

- Pass Legislation For A Rebuttable Presumption of Shared Parenting, Allowing Children
 Meaningful Time with Both Engaged & Capable Parents Post Separation or Divorce
- Require State Reporting on Shared Parenting Progress Annually
- Form a Legislative Task Force to examine the lack of uniform justice in Family Law
- Conduct Review of Judicial Educational Materials, Then Re-Train Judges on Current Child Custody Research
 - "Conflict" Shouldn't Negate Shared Parenting
 - Shared Parenting Produces the Best Outcome for Children
- Conduct Review of Continuing Educational Materials, Then Re-Train Parenting Investigators,
 GAL's & Parent Coordinators on Current Child Custody Research
- Require Mandatory Training of Family Law Attorneys
 to Ensure they are Current on Child
 Custody Research
- Ensure The State Bar Association of North Dakota's (SBAND) has no more influence on Custody Law than the average North Dakota citizen
