EXPERIENCE

Experience working with young children in an educational setting.

A willingness to bring one's own style and sense of beauty into the work.

Experience working and communicating with children and families.

A Child's Nature is located in Wilton NH on the Pine Hill Waldorf School campus. This campus is part of a beautiful hilltop community of three schools – A Child's Nature, Pine Hill Waldorf School, and High Mowing School - serving children ages birth through grade twelve. This hilltop community also includes The Temple-Wilton Community Farm – the oldest continuously operating CSA in the United States. This beautiful 130+ acre biodynamic farm produces the vegetables our children use in

their weekly soup! The farm also hosts a farm to table café – The Hilltop Café – which is a delightful gathering place and favorite breakfast and lunch location.

A Child's Nature provides flexible, full-day child care and education for families of diverse backgrounds. Surrounded by goodness, truth and beauty, our children achieve their full potential through daily outdoor adventures, purposeful work, artistic experiences, and imaginative play with a curriculum inspired by Waldorf education. Through close personal relationships with caregivers, teachers and nature, our children grow into capable, caring individuals who can step out into the world with confidence.
