

VACCINATION:

You will need to have a screening blood test requested from your GP to test your current vaccination status for the required vaccines (see below). Once you have met the criteria for sufficient vaccination for each of the following, forward the results or letter from your GP with the registration form.

- Diphtheria, Tetanus, Pertussis (whooping cough) (dTpa)
- Hepatitis B
- Measles, Mumps and Rubella (MMR)
- Varicella (Chicken Pox)
- Tuberculosis screening
