

Girl Scout Programs at Biomes Marine Biology Center 2016-2017

The Biomes Marine Biology Center is New England's only private marine education facility and the most hands-on aquarium in New England. Biomes specializes in teaching children and adults about the marine animals of Narragansett Bay and the Atlantic Ocean. Girls can come explore the many animals at the center with their families or troops during public walk-in hours and special scout programs. Biomes can work with troops to design programs to specifically meet badge requirements.

Pre-registration is required for all programs and must be done through the Biomes website at least 1 week in advance. For more information, please visit www.biomescenter.com or call 401-885-4690.
