Detailed Employment History

Director of Technology Support Services at Fairfield-Suisun Unified School District, Fairfield, CA

Role: Influential Innovator & State Leader | January 2011 - Present

Key Business Services Accomplishments:

- Completed the FCMAT/CASBO CBO Mentor Program and earned certification
- Organized 4 disparate departments into an integrated unit
- Brought the district's CALPADS reporting status from seriously delinquent to superior over a two year period, maximizing the funding that the district receives
- Created an inventory system for tracking of over 20,000 pieces of equipment ensuring timely replacement and outstanding readiness for audits
- Successfully managed and accounted for an ongoing annual department budget of \$4 million, one-time funds of \$8 million, and \$5 million in school site funds over 4 years
- Developed budgets and operational models of support for schools that are sustainable, easy to maintain, customizable, and simple to explain or defend when questions of equity are raised
- Created a district budgeting tool that is considered a model for school districts around California
- Served as a member of the educational services and business services teams, taking a formative role in the development of the LCAP

Other Accomplishments:

- Enabled online collaboration for all students by implementing Google Apps for Education
 - Built a robust network providing among the highest levels of Internet bandwidth per student of any school district in California
 - Provided district vision leading to White House recognition as an original Future Ready district
 - Created a plan to upgrade all voice systems in the district to save \$500,000 per year
 - Pioneered creative operational practices that have improved technology support and professional development each year
 - Became one of the top speakers at the CETPA Conference 3 years in a row
 - Increased the size of the technology department from 23 to 42 in five years while building an elegant professional development model that promotes graceful growth
-

Director of Technology Services at Norris School District, Bakersfield, CA

Role: Open Source Magician & Creative Budgeteer | September 2006 - December 2010

Accomplishments:

- Created successful relationships with principals and parent groups to triple technology funding in the district with the lowest per pupil funding in California
- Inexpensively increased data center and network operations capacity through unique open source deployments
- Designed the network and computing infrastructure for a brand new elementary school
- Increased district visibility while becoming a state leader by serving on the board of directors for the California Educational Technology Professionals Association (CETPA)
- Played a pivotal role in the development of the Chief Technology Officer (CTO) Mentor Program and was conferred CTO certification as a result of this work

Director of Technology at Tehachapi Unified School District, Tehachapi, CA

Role: Trusted Administrator & Prolific Trainer | November 2004 - September 2006

Accomplishments:

- Built trust with teachers through school visits, face to face interactions, and exemplary service in a district with a history of difficult management and employee relationships
 - Led teams of administrators and teachers in the first time development of benchmark assessments
 - Conducted over one hundred professional development classes for teachers over two years
-

Information Services Technician III at Kern High School District, Bakersfield, CA

Role: Assessment Architect & Teacher Connector | October 1996 - October 2004

Accomplishments:

- Led teachers and students in the creation of California's first online assessment and practice system called Kern Learn
 - Created a virtual online banking system to support the California Virtual Enterprise network of high schools and led professional development for teachers across the state
 - Personally mentored dozens of high school students in job skills and programming methods
-

Computer Operations Assistant at Utility Trailer Manufacturing Company, City of Industry, CA

Role: New Software and Networking Deployment Specialist | February 1995 - July 1996

Accomplishments:

- Successfully tested all existing mission critical software with the new Windows 95 operating system and installed Windows 95 on all computers at the corporate office for the first time
 - Implemented the company's first modern network
 - Revolutionized IBM AS400 operational practices, reducing the time needed to complete them each day from eight to four hours
-

Computer Systems Operator at United States Air Force, Spain and California

Role: Big Iron Wizard and Software Program Caretaker | June 1990 - June 1994

Accomplishments:

- Cleared for and maintained the highest level of security clearance available in the military: Top Secret Sensitive Compartmented Information
- Successfully planned for and implemented a data move strategy that facilitated the closing of a large air base in Spain
- Honored as Airman of the Quarter at Torrejon Air Base in Spain
