

RELEASE FORM

I understand that Set Free is not a professional counseling program, and that its staff members are not licensed with the state of Virginia as professional psychotherapists or counselors. Although their understanding of the homosexual condition and other forms of sexual brokenness from a biblical perspective may prove helpful to me, I recognize that they are not set up to provide therapeutic counseling for other and related needs in my life, and that my seeking out professional and/or pastoral counseling may be necessary in order to experience significant healing. As such, I do not hold Set Free and its staff liable for my mental, emotional or personal condition(s).

I understand that Set Free will protect my privacy, not sharing with others outside of their staff without my permission. I also understand that the laws of Virginia require exception to this protection of my privacy, if I express specific intent to commit an act of suicide, homicide or child abuse, or disclose that I have already committed such.
