

CLASSIC WAX

Classic Wax is toluene-free, safe and easy to use, giving an excellent shine. Classic Wax is especially formulated to achieve a professional finish to wood with a minimum amount of effort.

431 FLOOR WAX

Formulated to give a natural look to wooden floors. Easy to apply and buffs to a satin patina sheen. Provides anti slip properties when compared to standard waxes.

FURNITURE CLEANER

A traditional recipe made from mixes of traditional oils and solvents. FLAG Furniture Cleaner allows you to clean old wax and grime without damaging original hard finishes. Ideal for use on furniture and stair banisters particularly where grime has collected over the years.

SPIRIT STAINS

Light fast high quality stains for use on furniture prior to polishing or waxing.

CREAMY BEESWAX

Made to a traditional recipe using refined beeswax and oils. Our Natural Creamy Beeswax polish cleans revives and enriches the natural patina on all wooden furniture creating a deep rich sheen.

Natural Creamy Beeswax is available in both clear and dark. A wax polish especially suitable for period oak and mahogany. If necessary our dark beeswax may be used to impart deeper warmer colour to lighter coloured furniture.

Natural Creamy Beeswax is easy and safe to use.

Apply with a soft cloth, working along the grain, and polish off immediately. Best results are obtained by applying wax to small areas at a time.

Natural Creamy Beeswax both cleans and polishes furniture to a deep lustrous shine leaving the furniture with a distinctive pure clean smell.

OILS

Teak Oil is a blend of natural oils and gum turpentine, ideal for use on garden furniture etc. Nourishes and protects dry wood. Very easy to use and historically a gardeners favourite.

Danish Oil is a blend of resins and tung oils to give a protective natural finish to work tops and previously untreated furniture, including doors. Contains drying oils to help achieve a film formed protective barrier. The natural oils will also penetrate and nourish the timber

FLAG offers a wide range of oils including linseed oils, tung oil and special purpose blends.

VARNISHES & LACQUERS

WATER-BASED LACQUERS

AQUALAC 5 litre (Matt, Semi-matt & Gloss finish)

Conforms to BS5665 EN71 Part 3
Safety of Toys and Nursery Furniture

For use on domestic and light traffic floors.

A durable acrylic water-based clear coating. Easy to apply, quick drying, creating a beautiful non-yellowing finish. This product is ring resistant, which means it can tolerate hot cups. Also resistant to alcohol spills.

AQUALAC PU 5 litre (Gloss finish)

The ultimate heavy-duty water based floor lacquer. Quick drying, non-toxic, low odour non-yellowing easy to apply, giving a very durable scuff resistant finish. Ideal for high quality furniture, dance floors, sports halls and very heavy foot traffic areas. This product is ring resistant, which means it can tolerate hot cups. Also resistant to alcohol spills.

SOLVENT-BASED VARNISHES

POLYURETHANE VARNISH

A tough polyurethane clear varnish based on a high quality resin system giving excellent durability. Hardwearing and suitable for wood flooring, furniture etc.

QD POLYURETHANE FLOOR VARNISH

Provides a tough finish, also suitable for doors, window frames, furniture, floors and other joinery products. Quick drying properties make it ideal for use on floors.

YACHT VARNISH

A highly durable and flexible exterior varnish with excellent coverage, good weathering and UV resistant, non-yellowing.

SHELLAC PRODUCTS

Shellac is a resin secreted by the female Lac bug, on trees in the forests of India and Thailand. It is processed and sold as dry flakes. The most common know shellac product in the paint industry is probably patent knotting solution, often used to seal resinous timber knots. FLAG manufacturers a wide range of shellac based products from sanding sealers and french polishes to highly specialist polishes. A full range of product data sheets are available on request.
