CURREY & CO CONSULTING

What is WIL Forum?

Women in Leadership Forum is a monthly, open group session run exclusively for women, by women.

Led by Jill Currey, Principal, Currey & Co Consulting, and supported by Engineers Australia, the purpose is to bring together a variety of women to explore their ideas around leadership and open up new ways of thinking, so that women have the tools to step into a leadership identity that is authentic, courageous and aligned to their values.

Women will be invited to explore challenges, share insights, compare experiences, and try out new ideas within a genuine, safe and trusted space.

WIL forum is devoted to developing **'Personal Power'** which is defined as:

- freedom and flexibility of choice in thinking, feeling and behaviour *(self- leadership);*
- the power to inspire others' thinking, feeling and behaviour from a locus of self as opposed to leveraging positional power *(leading others).*

What to Expect

Each session will introduce a topic related to women in leadership. For example:

- Beliefs about leadership (including unconscious bias);
- The 'Imposter' syndrome, and other stories about self as leader;
- Awareness of self, and clarity about one's values;
- Working with intention, and presence;
- Boundaries – knowing them and how to set them.

Opportunities

DEVELOP greater leadership skills that foster growth and promote confidence and new ways of being in the workplace

NETWORK with like-minded women

LEARN from peers and share experiences

RELATE with others in ways that support a deeper sense of authenticity and connection

When, Where and How Much?

- 8.30am – 9.50am, starting the 22 March 2018, then the third Thursday in the month, except for school holidays. Alternative dates will be advertised.
- Engineers Australia, Level 5, 188 Collins Street, Hobart
- $30.00 per session. Participants will pay when registering.
