# *traditional worship*

By now it seems like Easter Sunday was a long time ago. Do you realize that in real time, Jesus was still walking around on earth appearing at different times to various people? That must have been very wonderful seeing Him and realizing He was really alive! My guess is many of the hundreds of people who saw Him, wondered what would happen next. Was He simply going to stay here on earth and build His kingdom? He had been killed once. Would the officials try to do it again? How unnerving it must have been for them to hear word that the man they had killed was alive again and walking about. After all, it was more than a month ago that they crucified Him and still, He is here! I'm afraid too often we read the Easter account as a story, like we read other stories or novels and don't actually play it in our minds as true history. But this story is not simply "history." This same Jesus who walked this earth following His resurrection, has sent His Holy Spirit to be among us this morning, which is every bit as real as the person sitting beside you. Worship is the engagement and encountering of the living Lord. Remember, one of Jesus' blessings came after His resurrection when He said to Thomas, "blessed are those who have not seen and yet have believed." That would be us!
