"The heartbreak happens all too often ? a pet owner is unable to afford treatment and their sick or injured companion animal pays the price. If the owner is elderly, disabled or on a fixed income, the cost of care may be too much of a stretch for their pocketbook. Perhaps they have been victimized by crime, property loss or a job layoff and are experiencing a temporary financial hardship ? making it too difficult to afford pet care. And some animals, brought to clinics by Good Samaritans, don't have an owner to pay for treatment. Whatever the situation, the fact remains the same: When sick or injured animals are unable to receive veterinary care, they suffer. Through the AAHA Helping Pets Fund, veterinary care is possible for sick or injured pets even if they have been abandoned or if their owner is experiencing financial hardship."

However, how many of us come out in a cold sweat when our pet is ill or injured and we know we have to take it to the vet? The Mosby Foundation

info@...

For anyone who would like to know more about Mosby please read his story on [www.themosbyfoundation.org](http://www.themosbyfoundation.org) If anyone would like to contact me, please feel free. Our e-mail is listed above, our phone number is 540-939-4035. Our Mission Statement:

The Mosby Foundation is organized exclusively for charitable purposes, to assist in the care of sick, injured, abused, neglected and /or homeless dogs in order to ready them for placement in loving and permanent homes.

It's really very simple. A rescue group, foster person, shelter or vet has a dog that requires medical care and there aren't sufficient funds for that treatment. The Mosby Foundation is contacted by a licensed veterinarian with case details. Our Board decides whether we can help, and if so, how.

Many rescued dogs need medical or rehabilitative care prior to

adoption. Often dogs lack current vaccinations, need spay/neuter, or have other medical needs.

For example, if there is a dog at a shelter who a vet certifies is healthy, yet has tested positive for heartworm, The Mosby Foundation could decide to provide a portion or all of the funds required for heartworm treatment. The dog would then be healthy and adoptable to a permanent home.

The Mosby Foundation is totally funded by donations and run by a committed group of volunteers. Carole Adams  
President, The Mosby Foundation
