Hope House

Family Education Program

Mondays 6:00pm-7:30pm

Family Education Program Overview

Addiction is a disease that consumes not only the life of the addict, but also everyone in that person's life. Hope House recognizes the difficulties that families in crisis face and our staff has developed a six-week course for coping with a loved one's addiction. Our Family Education Program is designed to build a strong support network for a recovering loved one by exploring coping mechanisms, teaching effective communication techniques, recognizing relapse behaviors and discussing ways to rebuild the trust needed to form healthy and productive relationships post-treatment.

Hope House Treatment Center offers residential and outpatient substance abuse treatments to the Maryland community. We are fully licensed and certified by the state. We provide men and women who are battling alcohol and drug addictions the means to become happy and productive citizens, equipping them with the tools for a life of sobriety and recovery. We are staffed by a caring, experienced team of professionals that include addiction trained nurses, physicians, Master's level and associate counselors, and treatment aides that provide around-the-clock care.

Mission Statement

To provide high quality, comprehensive, integrated, holistic, patient-centered treatment for addiction and co-occurring mental illness in a caring and supportive environment that equips patients to achieve sobriety and pursue a fulfilling life in recovery.

Our Vision

To achieve status as the premier provider of addiction and mental health recovery treatment for patient, support and advocacy services for families, and as a positive change agent in the communities we serve.
