 WHOLE HOUSE MULTI-STAGE WATER FILTRATION

WHOLE HOUSE WATER TREATMENT SYSTEM

HALO PURE DELUXE
SOLVES CHLORINE PROBLEMS

HALO WATER filtration systems are effective at reducing chlorine, chloramines, and chlorination by-products from all of your household water.

No more Chlorine Damage. No more bad taste & smell. No more bottled water.

HALO
 WATER SYSTEMS
PREMIUM
MULTI-STAGE
 WHOLE HOUSE FILTRATION

STAGE 1 Granular Activated Carbon (GAC)
 NSF Certified acid-washed GAC for the general removal of chlorine, chloramines, gases, dyes, fuels, heavy metals, man-made pollutants, disinfectants, pesticides, THM, sodium hypochlorite, undesirable odors, undesirable taste and volatile organic contaminants.
 Our NSF/ANSI Certified GAC meets or exceeds all Food Chemical Codex, AWWA, ASTM and USP Standards.

STAGE 2 Catalytic High Activity Carbon (HAC)
 Catalytic HAC is an outstanding material for successfully reducing free chlorine from water supplies. The end product is clean, fresh water with no objectionable taste or odor characteristics. Additionally, HAC can be used for filtering waters having a wide range of pH levels and will impart a high "polish" to the filtered water.
 Our HAC is NSF/ANSI Certified under NSF Standard 42

STAGE 3 Filter-Ag Plus®
 Filter-Ag Plus® is an all-natural, environmentally safe media with a large surface area and micro-porous structure. It is a highly efficient filter media for the reduction of suspended matter down to the 5 micron or less range and is thus, extremely effective at removing water turbidity.
 Our Filter-Ag Plus® NSF/ANSI Certified under NSF Standard 61.

STAGE 4 High Density Garnet Filter Media
 Garnet is a high hardness, high density granular filtration media that can effectively filter down to the 10-20 micron range. It also provides an excellent support bed for the other filtration media.
 Our High Density Garnet meets AWWA specifications. It is also classified by Underwriters Laboratories Inc.® in accordance with ANSI/NSF Standard 61.

BENEFITS

- Protects your Family, Home & Planet
- PREMIUM Grade Carbon Media
- Reduces Chlorine & Chloramines
- Crystal Clear Great Tasting Water
- Limited Lifetime Warranty
- 100% Maintenance Free

WHOLE HOUSE WATER TREATMENT SYSTEM

SMART TANK
The Vortech™
 SAVES WATER
 SAVES THE ENVIRONMENT

Uses up to 30% less water during backwash over standard tanks. The Self cleaning VORTECH distributor prevents system clogging, and the high-flow design maximizes high efficiency valves.

That's Smart!

SMART VALVE

FULLY PROGRAMMABLE
 FULLY AUTOMATIC
 HIGH EFFICIENCY
 HIGH RELIABILITY
 BATTERY BACKUP
 STATIC MEMORY

The Clack head is renowned for its quality, reliability and programmability. It arrives to your home ready to plug in and play. It retains its programming even in a power outage.

That's Smart!

SMART MEDIA

PREMIUM GRADE
 ACID WASHED
 GRANULAR ACTIVATED CARBON

We use Premium-Grade, NSF-Certified, Acid-washed Carbon media. Due to its high degree of microporosity, just one gram of activated carbon has a surface area in excess of 5000 square feet.

That's Smart!

SMART MEDIA

CALGON - CENTAUR
 HIGH ACTIVITY GRANULAR ACTIVATED CARBON
 CHLORAMINE IRON REMOVAL
 HYDROGEN SULFIDE

We use Centaur® High Activity Carbon because it is an outstanding material for effectively reducing stubborn contaminants like Chloramines, Hydrogen Sulfide, other VOC's., bad tastes & odors.

That's Smart!

SMART MEDIA

FILTER-AG PLUS 5 MICRON SEDIMENT FILTRATION
 QUARTZ GARNET 10-20 MICRON SEDIMENT FILTRATION

Filter-Ag Plus® is an all-natural media. It is highly efficient for the reduction of suspended matter down to the 5 micron level. Garnet is a hard, dense media that can filter out sediment down to the 10-20 micron range.

That's Smart!

System Capacities

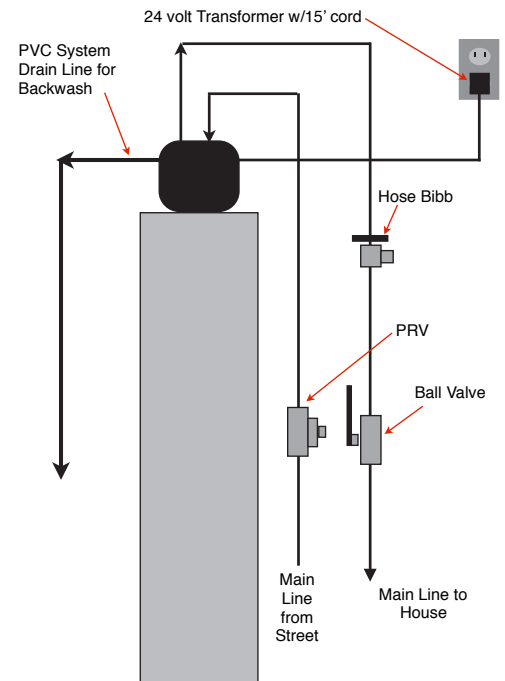

HALO 5 - 1" 1,000,000 Gallons For a family of four this system will last about 10 years 2-8GPM	HALO 5 - 1.5" 2,000,000 Gallons For a family of six this system will last over 10 years 4-15 GPM
HALO 5 - 1.25" 1,500,000 Gallons For a family of six this system will last about 10 years 2-8 GPM	HALO 5 - 2" 3,000,000 Gallons For a family of six this system will last over 10 years 8-25 GPM

System Specifications

System	Tank Size	Wt. (lbs.)	Height (in.)	Width (in.)	Depth (in.)	Inlet/Outlet (in.)	Model #
HALO PURE Deluxe - 1"	10" x 54"	80	61	10	10	1"	HPX-100
HALO PURE Deluxe - 1.25"	12" X 52"	105	59	12	12	1.25"	HPX-125
HALO PURE Deluxe - 1.5"	13" X 65"	130	73	13	13	1.5"	HPX-150
HALO PURE Deluxe - 2"	16" X 65"	220	74	16	16	2.0"	HPX-200

Installation at a Glance

1. Plumb Inlet/Outlet to system at Main.
2. Plumb system drain line.
3. Flush system with Hose Bibb (20 mins)
4. Force Regeneration (10 mins).
5. Flush system with Hose Bibb (20 mins)
6. Force Regeneration (10 mins.).
7. Final Flush with Hose Bibb (20 mins).
8. Open system to household.
9. Test for Chlorine at Hose Bibb and Kitchen Sink and show customer results.

WARNING: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Intended for use with cold water only. Do not exceed 80 psi. Intended for residential use only.

NOTE: The HALO 5 Stage Systems are intended for treatment of potable water provided by municipal water providers. While the HALO 5 Series system may be effective for treatment of Well Water it is vital that a well water quality analysis be provided for review in order to ensure that optimum results will be delivered.
