AUTO EMERGENCY TOOL & LED FLASHLIGHT

Model SP-4000

General Description: This multi-function auto emergency tool has all you need to keep you safe on the road – LED flashlight, flashing white light, window breaking tool and seatbelt cutter – all without batteries.

Product Features and Functions:

- High power LED flashlight
- Flashing red emergency light
- Built-in dynamo charger – never needs batteries
- Stainless steel pin for breaking glass
- Seatbelt cutter

Operating Instructions:

Charging the Battery Using the Hand Crank: Unlock the handle and crank clockwise at about 3 revolutions per second for 1 minute or more. Continue cranking for additional charging as needed.

Flashlight: To turn on the LED flashlight, slide the ON/OFF switch all the way forward. Slide all the back to turn off.

Flashing White Light: To turn on the flashing white light slide the on/off switch to the middle position. Slide all the way back to turn off.

Breaking a Car Window: To break a car window in an emergency, remove the protective cover from the stainless steel tip on the top of the flashlight. Holding the flashlight firmly in your hand, swing the stainless steel pin into the glass with as much force as possible. This should crack the glass. Continue hitting the glass as need to break through the window. Be extremely careful around broken pieces of glass and avoid direct contact.

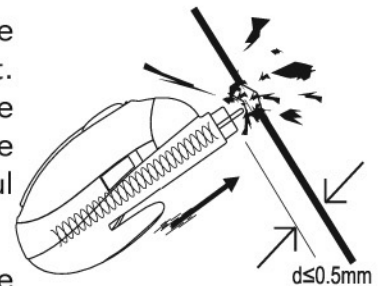

Cutting a Seatbelt: To cut away the seatbelt in an emergency, hold the flashlight firmly in your hand. Using the razor blade built into side of the flashlight, slide the seatbelt into the razor blade. Use a back and forth motion until the seatbelt is cut through.

Precautions:

- To avoid injury, never shine the light directly into the eyes.
- Crank as evenly as possible and keep rotating steadily. Cranking too slowly will increase the charging time, cranking too quickly can damage the power generator.
- Be careful when cranking too avoid injury to fingers and fingernails
- To increase the lifespan of the battery, do not crank continuously for more than 3 minutes when the flashlight can light normally – and do not crank more than 10 minutes continuously when it can't light.
- Cranking the handle at least 1 minute once a month will prolong the life of battery.
- Turn off the light when charging
- Never place the unit in very high heat or humidity

Standard Product Accessories:

- Female USB plug with round DC charging pin

Technical Specifications:**1) Lighting:**

The external force of breaking the glass	≥55N, ≤75N
The max. luminous flux	≥9 Lm
Lighting time after 1 minute cranking	≥10 Minutes
Flashing time after 1 minute cranking	≥60 Minutes
Lighting time after being charged fully	≥80 Minutes
Flashing time after being charged fully	≥2 Hours

2) Main parts life-span:

Switch	10000 Times
Seatbelt cutter	500 Times

The whole unit	5 Years (Seatbelt cutter uses more than 400 times.)
The plastic part	5 Years

3) Size and weight:

Product size	5" X 2.5" X 2
Product weight	4.2 Ounces

4) Others:

Specification of built-in battery	NI-MH battery 80mAh, 3.6 V
